# **Chairman's Speech**

It brings me great pleasure to report that all of our business sectors had another successful year. The Financial year 2022-2023 turned out to be one of the best years for the Company, where we had record breaking profits.

The Company outperformed across all financial parameters by achieving its highest ever revenue and profit. At a consolidated level compared to FY22, the total Income grew by 34% to INR 2,201 Crores, EBITDA grew by 62% to INR 262 Crores and Profit after Tax grew by 65% to INR 173 Crores. Our EPS continues to increase year after year. The Company was also able to showcase volume and value growth and improve its balance sheet position further.

Building infrastructure and attracting investments will be the key focus areas for India over the next 25 years to emerge as a developed nation. The Union Government has made unprecedented investments in modern infrastructure in the last few years taking the country to new heights. Under Budget 2023-24, capital investment outlay for infrastructure is being increased by 33% to ₹ 10 lakh crore (US\$ 122 billion), which would be 3.3% of GDP and almost three times the outlay in 2019-20. The quality of a country's infrastructure is a key determinant in shaping its economic trajectory.

The infrastructure, construction and the real estate markets saw significant growth in the past financial year. The outlook for all these industries seems strong due to the government's focus on these sectors and various schemes like the smart city project, PM Awas Yojana, PLI Scheme etc. which will act as growth drivers for these industries. The biggest push will come from the manufacturing growth driven by Make in India initiative supported by the China +1 strategy.

India aims to soon be one of the manufacturing hubs for the world. Building on the competitive advantage of a skilled workforce and lower cost of labor, the manufacturing sector is also witnessing an increased inflow of capex and heightened M&A activity, leading to a surge in manufacturing output and resultant increased contribution to exports.

The agricultural sector forms the backbone of the country's economy and for India to grow to great heights it is imminent to continue supporting the Agri-sector. To further boost this sector the government has allocated INR 1.24 lakh crore to the Department of Agriculture, Cooperation and Farmers' Welfare in FY 24 Budget.

Since ACE has led the way in developing cutting-edge, top-tier equipment, the Company has been rewarded with a strong brand reputation and repeat business, which has led to a history of steady growth. Our major strength is our flexibility and agility to suit a wide range of industries for broad applications. Through our R&D, we are committed to offer our customers the newest technology and new products. All of our goods are designed to satisfy consumers through effective sales and product support.

Looking at the tremendous global opportunities, we have also strengthened our export arm and forayed into new territories with our tractors, cranes and construction equipment. We intend to enhance the quantum of our exports substantially as there is an increasing demand for our products, which are being accepted by the global customers. Increased Export Revenue coupled with opportunities in Defence Sector, and increasing utilisation levels of Construction Equipment and Agri business are taking the Company forward.

We continue to be very confident about the Company's medium to long-term prospects and believe that the foundation is firmly in place. With the expected economic growth of India in coming years, I strongly believe that your Company is on the cusp of a multi-year growth cycle. The Company has made significant strides in recent years to strengthen the operations, product mix, procedures, and controls that make up the foundation of its business.

In conclusion, I would like to sincerely thank all our stakeholders for their continued trust and support and we will continue to grow our business by offering innovative products and solutions and exploring new avenues for future growth.

With best wishes,

Sincerely, Vijay Agarwal Chairman and Managing Director

### MANAGEMENT DISCUSSION AND ANALYSIS

#### **\*** INDUSTRY STRUCTURE AND DEVELOPMENTS

#### GLOBAL ECONOMY OVERVIEW

A combination of shocks including soaring inflation, geo political tensions, supply chain disruptions, climatic disasters and covid 19 related upheavals in China impacted the global growth in 2022. Inflationary pressures across countries skyrocketed in 2022 owing to rising energy and food prices, supply chain disruption and rebounding global demand. As a result, central bankers around the world began raising interest rates with a synchronicity not seen in the recent past. Between March 2022, and May 2023 the US Fed raised the fed funds rate by 500 basis points and the interest rate thus went up from 0.25% at the start of monetary tightening cycle to 5.25% as on date which is it highest level in last two decades. World economic activity proved more resilient than expected in H2 of 2022 however the global economic outlook for 2023 has deteriorated reflecting the impact of monetary tightening especially in advanced economies and the continuing geopolitical crises in Ukraine.

It is believed that the global inflationary pressure has already peaked in early 2023 and weak demand could continue to lead to further deceleration. Moderating global oil prices and declining input cost could contain inflationary pressure though rising food prices could weigh on core inflation causing it to remain sticky. As per the latest IMF estimates, the global economy is projected to grow at 2.9% in 2023 and 3.1% in 2024. In 2022, Middle East and Central Asia have been the highest contributor to the global real GDP, while emerging markets like India and China are expected to be the highest contributors in 2024. Euro area is estimated to grow at 1.6% in 2024, whereas United States and Latin America are expected to grow at 1.0% and 2.1% respectively in 2024.

#### INDIAN ECONOMY OVERVIEW

Spurred by private consumption and investment, the economy grew strongly in fiscal 2022, albeit more slowly than a year earlier. Rising food and fuel prices pushed inflation up beyond the central bank's target. Growth is expected to moderate slightly in 2023 and rise in 2024, buoyed again by private consumption and investment as the global economy improves. Actions taken by the government and RBI, underpinned by softening global commodity prices has led retail inflation to come down from 7% in August 2022

to 4.7% in April 2023. Accordingly, RBI has indicated a pause in further interest rate hike in its last policy meet. Inflation should be on a downward trend as global price pressures moderate.

As per IMF, India's will be the fasted growing major economy in 2023 with expected GDP growth of 6.1% in 2023 and 6.8% in 2024, driven by rising public and private capex and resilient domestic demand. For the first half of FY23, the Industrial Sector's overall Gross Value Added (GVA) increased by 3.7%, above the 2.8% average growth seen in the first half of the previous decade.

In 2023, nearly 15% of the world's growth is forecasted to come from India. These growth projections are partially based on the economy's resilience, which can be observed in how quickly private consumption rebounded, amid rising government's capital expenditure, digital penetration and policy reforms. India will also be able to maintain a positive growth-interest rate differential owing to the government's policy of capital expenditure led growth, which will result in a sustainable debt to GDP over the long term.

The Indian government in its FY24 budget allocated a record high of ₹10 lakh crore towards capital expenditure. The central government has ramped up capex spending to 3.3% of GDP from a pre-pandemic average of 1.7%.Structural reforms undertaken by the Indian policymakers in recent years and higher allocation towards capital expenditure capex should help India's gross domestic product (GDP) to register a CAGR of around 6.6% between FY23 and FY30, the strongest growth phase since FY10.

In order to connect India to international supply chains, the Production Linked Incentive (PLI) programmes were created with an expected investment of 4 lakh crore during FY22–27.

As per the Indian Brand Equity Foundation (IBEF) In FY22, investments under PLI programmes totalled INR 47,500 crore, which reached 106% of the year's set objective. Due to PLI initiatives, India registered production/sales worth of INR 3.85 lakh crore and the creation of 3 lakh jobs in 2022. The Indian economy has also begun to prosper from more formalisation, greater financial inclusion, and economic possibilities brought forth by technologically driven economic reforms.

#### CONSTRUCTION EQUIPMENTS INDUSTRY

India's construction equipment industry turned in its best performance with 26% year-on-year growth in FY23 as sales crossed the one lakh unit mark driven by demand from Infra construction and railways. The Indian Construction Equipment Market was valued at USD 7.9 Bn in 2023, and it is estimated to reach a value of USD 12.4 Bn in 2029, growing at a CAGR of 8.9 percent over the forecast period.

The Indian Construction Equipment market is capitalizing on the rapid growth of infrastructure and construction sector in the country. Construction equipment overall market size in the country has gone up by about 25% approximately in the last year. It has been supported by rising public & private capex, FDI reforms in construction sector, execution of high value Infrastructure and Real estate projects has led to the overall surge in demand for construction equipment's in India.

Indian Construction Equipment Manufacturers Association (ICEMA) has been lobbying for PLI scheme for manufacturing of Construction Equipment. The Production Linked Incentives (PLI) scheme, if granted, may attract an estimated USD 4 Bn of domestic and foreign investment in the near term. This is likely to boost USD 3 Bn in additional exports from the country, save USD 2.9 Bn in forex savings through import substitutions and generate employment opportunities for nearly 3.2 million people by 2030.

Government activities focused on infrastructure advancement and improvement in financing from non-banking financial companies (NBFCs) are boosting the demand for construction equipment in India.

#### Indian Crane Market Size

- The crane market in India began expanding post-2016, as various state governments and central government initiated critical infrastructure projects in Railways, Airports, Smart cities, Roads and highways and Real Estate.
- The Indian crane market was valued at USD 1.02Bn in 2023, and it is expected to reach USD 1.25Bn by 2027 by registering a CAGR of over 5.3% during the forecast period (2023 2027).
- India has planned massive investments into infrastructure over the next 5-10 years. An estimate suggests that this planned investment itself would generate a construction equipment (CE) demand of around USD180-200 Bn at the present rate of equipment infiltration.
- The key drivers for pick and carry crane segment are the construction and industrial sectors. Within the construction sector, the key demand driver is urban infrastructure while that of industrial applications is steel and power industries. Other cranes include slew cranes, crawler cranes and tower cranes. These are advanced value, more sophisticated cranes than pick-n-carry cranes and are usually used for heavier duty work.
- Demand for other cranes is driven primarily by the construction and industrial sector in the refinery and mining sectors. With the increasing average scale of infrastructure and construction projects, the growth rate of slew and tower cranes is likely to exceed the average growth rate of the overall crane's segment.

• The emerging trend of crane rental services across the country is propelling the market. Additionally, the significant growth in the Indian real estate sector is providing a boost to the product demand.

#### MATERIAL HANDLING

Manufacturing segment dominated the Indian material handling equipment market and is expected to continue its dominance for the next few years. Make in India initiative coupled with emerging China +1 strategy will boost the growth of the manufacturing sector over the next decade.

Warehousing is another sector which drives the demand for material handling equipment's. Total warehousing requirement in India is expected to grow at a CAGR of 7.5 % for the next 5 years driven by growth in e-commerce and consumption. Estimates suggest Investment in the warehouse has the potential to generate IRRs in the range of 15%-20% which is very lucrative for attracting growth capital in this space.

Pick and Carry crane held 30% share followed by forklift and slew cranes. The forklift is estimated to grow at high CAGR among product types. The flexibility and speed forklift offer make them ideal for repetitive material handling tasks especially in restricted areas like warehouses and yards.

According to the report, "India Forklift Market Outlook, 2027-28" the market is anticipated to grow with more than 18% CAGR for 2022-2028. The Forklift Market is flourishing owing to the advancements in the e-commerce industry, increasing infrastructure development investments, and rising usage of electric forklift trucks are expected to drive market expansion. Additionally, the market expansion is fuelled by the rising construction sector. Many government organizations are focusing on bolstering the current infrastructure in order

to promote overall economic development. Industries like automobile, logistics, chemicals, pharma etc are growing enormously in the Indian economy and thus they are contributing majorly to the demand of forklifts.

#### ✤ AGRICULTURE EQUIPMENT

Over the last few years, there has been a considerable progress in agriculture mechanization. A significant proportion of farmers in the country have already started moving from using animate sources to mechanical equipment's to power their farming activities. As a result of increasing farm mechanization trends, the agricultural equipment market has witnessed strong growth in the past few years. This market is currently being driven by several factors such as easy availability of credit, government incentives, increasing agricultural productivity, emergence of contract farming, increasing rural incomes, etc.

India is one of the largest markets for tractors in the world as they form most of the machinery usage in India. India continues to be a very profitable market for tractors. The country produces a massive volume of tractors and also exports tractors globally. Looking forward, IMARC Group expects the market to reach USD22.5Bn by 2028, exhibiting a growth rate (CAGR) of 10.5% from 2023-2028.

India has a very high trade surplus in farm machinery, but the decomposition shows that it is dominated by tractors. Trade in non-tractor farm machinery forms less than one per cent of total merchandise trade. Although India is both exporting and importing non-tractor farm machinery, exports form a relatively small proportion of total farm machinery exports (though it has been increasing over the years) and imports form a relatively high proportion of total farm machinery imports (though the share has varied over the years).

#### OUTLOOK

#### • INFRASTRUCTURE

Infrastructure sector is a key driver for the Indian economy. The sector is highly responsible for propelling India's overall development and enjoys intense focus from

Government for initiating policies that would ensure timebound creation of world class infrastructure in the country. Infrastructure sector includes power, bridges, dams, roads, and urban infrastructure development. In other words, the infrastructure sector acts as a catalyst for India's economic growth as it drives the growth of the allied sectors like townships, housing, built-up infrastructure and construction development projects.

India's high growth imperative in 2023 and beyond will significantly be driven by major strides in key sectors with infrastructure development being a critical force aiding the progress. In order to meet India's aim of reaching a USD 5 Tn economy by 2025, infrastructure development is the need of the hour. The government's focus on building infrastructure of the future has been evident given the slew of initiatives launched recently. The USD 1.3 Tn national master plan for infrastructure, Gati Shakti and Smart Cities has been a forerunner to bring about systemic and effective reforms in the sector, and has already shown a significant headway.

The government has launched the National Infrastructure Pipeline (NIP) combined with other initiatives such as 'Make in India' and the production-linked incentives (PLI) scheme to augment the growth of infrastructure sector. Historically, more than 80% of the country's infrastructure spending has gone toward funding for transportation, electricity, and water & irrigation. Investments in building and upgrading physical infrastructure, especially in synergy with the ease of doing business initiatives, remain pivotal to increase efficiency and costs.

Few of the recent government initiatives and investments in the infrastructure sector are as follows:

 Capital investment outlay for infrastructure is being increased by 33% to ₹10 lakh crore (USD 122 Bn), which would be 3.3% of GDP and almost three times the outlay in 2019-20.

- Infrastructure Finance Secretariat is being established to enhance opportunities for private investment in infrastructure that will assist all stakeholders for more private investment in infrastructure, including railways, roads, urban infrastructure, and power.
- 100 critical transport infrastructure projects, for last and first mile connectivity for ports, coal, steel, fertilizer, and food grains sectors have been identified and will be taken up on priority with investment of ₹ 75,000 crore (USD 9 Bn), including ₹ 15,000 crore (USD 1.8 bn) from private sources.
- An Urban Infrastructure Development Fund (UIDF) will be established through use of priority sector lending shortfall, which will be managed by the National Housing Bank, and will be used by public agencies to create urban infrastructure in Tier 2 and Tier 3 cities.

https://www.ibef.org/industry/infrastructure-sector-india

India has the second-largest road network in the world, spanning a total of 6.3 million kilometres (kms). This road network transports 64.5% of all goods in the country and 90% of India's total passenger traffic uses the road network to commute. Road transportation has gradually increased over the years with improvement in connectivity between cities, towns, and villages in the country.

Highway construction in India increased at 17% CAGR between FY16-FY21. Despite pandemic and lockdown, India has constructed 10,457 km of highways in FY22. Under the Union Budget 2023-24, the Government of India has allocated ₹ 2.7 lakh crore (US\$ 33 billion) to the Ministry of Road Transport and Highways. In FY23 (until December), the Ministry of Road Transport and Highways constructed national highways extending 6,318 kms.

100% Foreign Direct Investment (FDI) is allowed under the automatic route in the road and highways sector, subject to applicable laws and regulation.

Some of the recent Government initiatives are as follows:

- Under the Union Budget 2023-24, the Government of India has allocated ₹ 2.7 lakh crore (USD 33 Bn) to the Ministry of Road Transport and Highways.
- In March 2023, NHAI has invited bid to help in developing Wayside Amenities at more than 600 locations on National Highways and Expressways by FY25.
- The government also aims to construct 23 new national highways by 2025.
- The roads sector is likely to account for 18% capital expenditure over FY 2019-25.

https://www.ibef.org/industry/roads-india

#### REAL ESTATE

The real estate market in India has shown resilience and stability despite the impact of the COVID-19 pandemic. Home prices have stabilized with a rebound in housing sales and a decline in unsold inventories. The increase in rent price ratios in major metros has also shown promising growth potential in the rental market. REITs have experienced positive returns, and there is renewed interest from foreign funds in private equity real estate investments in India. Overall, the future performance of the real estate market in India looks promising despite global uncertainties.

India's real estate sector has seen a three-fold increase in foreign institutional inflows, amounting to USD 26.6 Bn between 2017 and 2022. Foreign investments accounted for 81% of total investments in real estate during the period, driven by investor-friendly FDI policies, increased transparency in deals, and higher investment limits. Institutional investments remained strong in Q1 2023, with a 37% YoY increase to USD 1.7 Bn, led by the office sector.

Real estate sector in India is expected to reach USD 1 Tn in market size by 2030, up from USD 250 billion in 2022 and contribute 13% to the country's GDP by 2025. Indian real estate is expected to attract a substantial amount of FDI in the next two years with USD 8 billion capital infusion by FY22. The Private Equity Investments in India's real estate sector, stood at USD 3.4 Bn in 2022.

Indian residential real estate market is witnessing a surge in new launches as the appetite for home ownership remains strong. It is expected that this sector will incur more nonresident Indian (NRI) investment, both in the short term and the long term. Bengaluru is expected to be the most favoured property investment destination for NRIs, followed by Ahmedabad, Pune, Chennai, Goa, Delhi and Dehradun. The residential housing is expected to get further boost by central government's schemes on affordable housing under Pradhan Mantri Awas Yojana (PMAY).

# Some of the major investments and developments in this sector are as follows:

- In the Union Budget 2023-24, the Finance Ministry has announced a commitment of ₹ 79,000 crore (USD 9.6 Bn) for PM Awas Yojana, which represents a 66% increase compared to the last year.
- In order to revive around 1,600 stalled housing projects across top cities in the country, the Union Cabinet has approved the setting up of ₹ 25,000 crore (USD 3.6Bn) alternative investment fund (AIF).

https://www.ibef.org/industry/real-estate-india

#### • WAREHOUSING AND LOGISTICS.

The warehousing, industrial, and logistics (WIL) sectors are projected to be crucial for attaining India's vision of being a USD 5 Tn economy by FY25. The warehouse and logistics industry has benefited the most from the COVID-19 epidemic, increasing its share from 2% in 2020 to 20% in 2022. With increased demand and supply throughout the years, the Indian warehousing industry is gaining traction.

The expansion of this industry is likely to be aided by a robust economy, government efforts to improve infrastructure, and a favourable business environment. Increasing consumerism and a huge consumer base are fostering the growth of retail and e-commerce in India. Demand for warehouse alternatives and logistics services has increased as a result of international firms relocating their manufacturing focus to India. The Production Linked Incentive (PLI) scheme is increasing domestic production and, as a result, increasing demand for industrial space and warehousing.

The Indian warehousing market is predicted to reach

USD 35Bn, expanding at a CAGR of 15.6% from 2022 to 2027. Modern warehouse facilities and technology-driven solutions have changed the warehousing sector in India in recent years.

The logistics sector in India was valued at USD 270Bn in 2022, and the same is expected to reach at USD 380 Bn by 2025, at a healthy 15% + CAGR. Moreover, the government is planning to reduce the logistics and supply chain cost in India from 13-14% to 10% of the GDP as per industry standards.

The warehousing and logistics industry in India is a dynamic and rapidly growing sector that is expected to play an increasingly important role in the country's economy. Despite some challenges, the sector is well-positioned for long-term growth and presents exciting opportunities for investors and businesses.

https://www.ibef.org/blogs/warehousing-and-logistics-sectorin-india

#### OPPORTUNITIES

The Indian Construction Equipment (CE) industry has witnessed a steady growth in last couple of years despite economic volatility observed due to the Covid-19 pandemic and Ukraine war in this period. However, with the Government's renewed focus on infrastructure development, the demand outlook for the construction equipment industry remains robust with several Government schemes and projects including the expansion of national highway network to 2 lakh km by 2025 already underway. In addition to this, the proposed river linking projects, last mile delivery of drinking water under Nal Se Jal scheme, Pradhan Mantri Awas Vikas Yojna, the railway network expansion and modernization, airports upgradation, mining and quarrying amongst others will create opportunities for all segments of construction equipment industry to grow over the next 5 years. The outlook for the CE industry therefore remains positive. Some of the exciting opportunities that could be addressed include:

- India is one of the fastest growing economies in the world. The past few years have seen an unprecedented focus on infrastructure development in India, with concrete steps being taken to promote it. The infrastructure sector, owing to its forward and backward linkages to other sectors of the economy, continues to be the focus area of the government. The infrastructure sector has been recognized as a key driver for achieving the government's goal of a USD 5 trillion economy by 2024-25;
- India will likely have faster infrastructure growth due to the government prioritizing infrastructure for overall

economic development which will help ACE to grow faster;

- Electrification is gaining traction and that puts ACE in a great position to take advantage of this opportunity. The recent launch of the Fully electric mobile crane can help propel them in this space;
- India is one of the major players in the agriculture sector worldwide and it is the primary source of livelihood for 55% of India's population. Agriculture sector in India holds the record for second-largest agricultural land in the world. This sector is heavily dependent on agricultural equipment. The potential robust growth in this sector is deemed to benefit ACE;
- There has been a significant increase in the spending by the government to the tune of INR 10 lakh crore. Additionally, the government has also introduced several PLI and other financial incentives for the infrastructure sector which will boost the development in the sector which should have a positive impact on ACE;
- The ongoing boom in both new projects in the commercial and residential real estate sector continues to be a strong driver of growth in the CE industry, also Indian Construction Equipment market is expected to grow 3x in the next 10 years on account of the rising investments in infrastructure development which will help ACE to grow significantly;
- Tie-ups with leading foreign companies which facilitate the availability of latest technology and machines from around the world could make its R&D stronger manifold.

#### **\*** THREATS:

- Due to inadequate construction project management, project risks might result in financial and legal difficulties, as well as disproportionate availability of workforce. Poor scheduling, planning, or inefficient resource allocation are just a few examples of how uneven project management can lead to risks that increase delays and increase costs for businesses;
- Growth in the Indian economy could be badly impacted by a slowdown brought on by unfavourable macroeconomic and international trends. The slowdown in the economy may hurt the infrastructure and manufacturing sectors which in turn can cause a slowdown in the Company's growth;
- The risk of raw material price volatility translating into margin pressure due to a sharp rise in raw material prices, increase the cost of goods sold and affect the profitability of the industry;
- Banks play the most vital role in financing the projects, however, due to reasons like restricted balance sheet

size, absence of willingness to lend to infrastructure sectors and drastically increasing non-performing assets may lead to decrease in funding projects;

- Fluctuations in the demand of construction equipment's can affect the Company's operations;
- Emergence of new foreign and domestic companies can cause the Company to face stiff competition;
- Environmental issues and strict laws may hinder the strong growth of the Company;

#### RISKS AND CONCERN

The Company operates in an environment which is affected by various risks, some of which are identifiable and controllable. Some others are unexpected and cannot be controlled. Under these conditions, proper identification and management of risks is very important in determining the ability of the organization to sustain value creation for its stakeholders.

The impact of the key risks, which are potentially significant are listed below has been identified through a formal process by the management. Your Company recognizes that every business has its inherent risks and the Company has been taking proactive approach to identify and mitigate them on a continuous basis. Some of the risks that are potentially significant in nature and need constant monitoring are listed below:

 Fluctuations in commodity prices: Prices and demand for the products may remain volatile/uncertain and could be influenced by economic conditions, natural disasters, weather, pandemics, political instability, and so on. Volatility in commodity prices and demand may adversely affect our earnings and cash flow.

**Mitigation:** Continue to work on mitigating the inflationary impact through 'Commodity Risk Management', cost re-engineering and value engineering activities and Leverage whenever there is a fall in prices of commodities and achieve material cost reduction.

 Supply Chain: Disruption in supply chain would lead to disruption in operations impacting our profitability and therefore sustainability. Our projects may face challenges around sourcing of raw materials for manufacturing.

**Mitigation:** Strong management team continues to work towards sustainable low cost of production, operational excellence and securing key raw material linkage. Continuous focus on cost optimisation projects to bring down fixed costs and optimise variable costs. Development of alternate suppliers and enhanced focus on localisation.

• Information Security and IT systems: The Company's increased reliance on digital technologies brings

exposure to cyber-attacks that may affect business operations. Non-compliance to stringent IT legislations and regulations may lead to imposition of penalties and adverse impact on the Company's reputation.

**Mitigation:** We have IT center and Enterprise Resource Planning (ERP)–integrating all business divisions, Data Loss Prevention strategy implemented across all IT assets. Adoption of strong IT security measures. Implementation of policies and procedures to ensure integrity of cyber security interventions.

 Distribution channels, retailer network and customer service delivery: To achieve customer delight, every customer must receive a seamless and consistently hassle-free experience. Our retailer partners reflect our brand strategy and vision, and effectively communicate our values through trained and capable representatives. Skilled frontline salespersons tailor their responses to appeal to both new and existing customers and are crucial to driving high customer.

**Mitigation:** Significant steps have been taken to improve dealer profitability and financial health. Online channels have been simplified to enhance the customer online experience. Retailer systems and tools have been enhanced, supporting retailer sales, service and technician representatives and helping them deliver a seamless and consistent customer experience. Several other initiatives have been undertaken over the past few years to aid seamless sales and improve after sales experience.

 Global economic and geopolitical environment: We are exposed to changes in the global economic and geopolitical environment, as well as other external factors, including but not limited to trade tensions, protectionism, wars, terrorism, natural disasters, humanitarian challenges and pandemics that may adversely impact our business. In the recent past, we have been witnessing increased geopolitical tensions globally.

**Mitigation:** We continue to closely monitor and risk assess global developments, implementing mitigation plans as necessary and we continue to maintain a balanced sales profile across our key sales regions. Our diverse global customer base gives us the flexibility to react to regional changes in demand by adjusting our sales mix.

 Occupational, Health and Safety Risks in Operations: Company may face accidents involving moving machinery, on-site transport, forklifts, blast etc.

**Mitigation:** Our health and safety guidelines ensure compliance with local and international laws, regulations and standards. The primary focus is protecting the

employees and communities from harm and operations from business interruptions. Safety training, mandatory usage of safety gadgets such as safety shoes, helmets, hand gloves, masks on shop floor/plants. Regular safety meetings are held for review of safety aspect, fatal accidents/near miss accidents, if any.

• **Technology innovation:** The Company manufactures different construction equipment that needs continuous technological up gradation .

**Mitigation:** The Company has been investing in R&D and it is upgrading its products continuously.

• **Financial Risk:** Foreign exchange rate fluctuation and changes in interest rate may likely to impact profitability.

**Mitigation:** Prudent hedging strategies and appropriate mix of financing to mitigate the risks.

 Competitive Intensity: Keeping in mind the high growth potential of the Indian Construction Equipment market, all OEMs, homegrown as well as MNCs, have presence across all segments. Today, multinational OEMs are deeply entrenched in the Indian market with local development centres, a strong local supplier base and good channel penetration.

**Mitigation:** The Company has a strong in house R&D division which is continuously adopting all the products to meet the latest technological needs. With the aim to remain competitive in the market and sustain its leadership position, our Company continues to invest in new product development, technology upgradations and increasing channel reach, while focussing on delivering customer centric products, services and brand building.

 Regulatory Risk: The business may be impacted due to non-compliance or delay in compliance with regulatory approvals or altered legislations may also have an adverse impact on the Company.

**Mitigation:** Continuous monitoring of the evolving regulations, impact assessment, implementation of statutory compliance, internal audit and external legal review. Liaisoning with regulatory bodies and industry associations to bring systematic changes for the benefit of industries.

 Talent Management : Failure to create and implement a succession plan for key positions and failure to retain high performers could impact business operations and growth.

**Mitigation:** Developing talent pool through learning and career development programmes, Identification of critical positions with mapping of successors and their readiness, Monitoring of retention for key/critical roles and high performers, analyse root cause for attrition with action plans.

### SECRETARIAL AUDIT REPORT FOR THE FINANCIAL YEAR 2022-23

# [Pursuant to section 204 (1) of the Companies Act, 2013 and Rule No. 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,

The Members,

ACTION CONSTRUCTION EQUIPMENT LIMITED

CIN L74899HR1995PLC053860

Dudhola Link Road, Palwal,

Faridabad, Haryana-121102

I, Shobhit Vasisht, Proprietor of Vasisht & Associates, have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **ACTION CONSTRUCTION EQUIPMENT LIMITED** (hereinafter called 'the Company'). Secretarial Audit was conducted in a manner that provided a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on the verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has during the audit period covering the financial year ended on March 31, 2023 complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on March 31, 2023 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made thereunder;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- (iv) The Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowing;
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):-
  - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;

# 12. Describe the measures taken by the entity to ensure a safe and healthy workplace.

Every measure has been taken to ensure a safe and healthy workplace. Performance in safety, environment, and compliance is being monitored by top management regularly. We have a defined & well-established structure with defined accountability and accordingly management review the progress on various parameters. Every manufacturing plant has a safety system where equal participation of the workers, and the management is ensured.

We are equally focusing on man, machine, and method. For men, different types of training and development are planned on a regular basis. For machines, we have focused on inherently safe equipment. For methods, we have focused on ACE system guidelines, where we ensure each process should have a written document and all processes are carried out according to Production System. Various motivational activities, such as National Safety Week, Road Safety Week, etc., are celebrated from time to time to ensure the participation of employees.

## Independent Auditor's Report To the Members of Action Construction Equipment Limited

#### **Report on the Audit of the Standalone Financial Statements**

#### Opinion

We have audited the standalone financial statements of Action Construction Equipment Limited (the "Company") which comprise the standalone sheet as at 31 March 2023, and the standalone statement of profit and loss (including other comprehensive income), standalone statement of changes in equity and standalone statement of cash flows for the year then ended, and notes to the standalone financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013, ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2023, and its profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

#### **Basis for Opinion**

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

#### **Emphasis of Matter**

We draw attention to Note 46 to the standalone financial statements, which sets out that the comparative information presented as at 01 April 2021 and as at and for the year ended 31 March 2022 has been restated.

Our opinion is not modified in respect of this matter.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

#### Other Information

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and auditor's report thereon. The Company's annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

#### Management's and Board of Directors' Responsibilities for the Standalone Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

#### Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

• Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from

error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting in preparation of Standalone financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosure in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **Other Matter**

The standalone financial statements of the Company as at and for the years ended 31 March 2022 and 31 March 2021 (from which the balance sheet as at 1 April 2021 has been derived), excluding the adjustments described in Note 46 to the standalone financial statements, were audited by another auditor who expressed an unmodified opinion on those standalone financial statements on 23 May 2022 and 28 May 2021, respectively.

As part of our audit of the standalone financial statements as at and for the year ended 31 March 2023, we audited the adjustments described in Note 46 that were applied to restate the comparative information presented as at and for the year ended 31 March 2022 and the standalone balance sheet as at 1 April 2021. We were not engaged to audit, review, or apply any procedures to the standalone financial statements for the years ended 31 March 2022 or 31 March 2021 (not presented herein) or to the standalone balance sheet as at 1 April 2021, other than with respect to the adjustments described in Note 46 to the standalone financial statements. Accordingly, we do not express an opinion or any other form of assurance on those respective standalone financial statements taken as a whole. However, in our opinion, the adjustments described in Note 46 are appropriate and have been properly applied.

Our opinion is not modified in respect of this matter.

## Annexure B to the Independent Auditor's Report on the Standalone Financial Statements of Action Construction Equipment Limited for the year ended 31 March 2023

Report on the internal financial controls with reference to the aforesaid standalone financial statements under clause (i) of Sub-section 3 of Section 143 of the Act

(Referred to in paragraph 2(A)(f) under 'Report on the Other Legal and Regulatory Requirements' section of our report of even date)

#### Opinion

We have audited the internal financial controls with reference to financial statements of Action Construction Equipment Limited ("the Company") as of 31 March 2023 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2023, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India(the "Guidance Note").

#### Management's and Board of Directors' Responsibilities for Internal Financial Controls

The Company's Management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

#### Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statement and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the company's internal financial controls with reference to financial statements

#### Meaning of Internal Financial Controls with Reference to Financial Statements.

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company;

and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.company's assets that could have a material effect on the financial statements.

#### Inherent Limitations of Internal Financial Controls with Reference to Financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

These standalone financial statements have been prepared under the historical cost basis except certain financial assets, financial liabilities and plan assets, which are measured on an alternative basis on each reporting date. Refer Note 31.

#### D. Use of judgements and estimates

In preparing these standalone financial statements, management has made judgements and estimates that affect the application of the Company's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

#### **Judgments**

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognised in the standalone financial statements is included in the following note:

- Note 1.2.n - Judgement required to whether an arrangement contains a lease or to ascertain lease classification

#### Assumption and estimation uncertainties

Information about assumptions and estimation uncertainties at the reporting date that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial year is included in the following notes:

- Notes 1.2.b.i revenue recognition: estimate of expected returns;
- Note 1.2.c- measurements of defined benefit obligations: key actuarial assumptions;
- Note 1.2.h, 1.2.i and 1.2.j measurement of useful life and residual values of property, plant and equipment and investment property and useful life of intangible assets;
- Note 1.1.E and 1.2.k Fair value measurement of financial instruments;
- Note 1.2.m and 1.2.p Recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources; and
- Note 1.2.1 Impairment of financial and non-financial assets.

(All amounts in ₹Lakhs, unless otherwise stated)

#### E. Measurement of fair values

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial andnon-financial assets and liabilities.

The Company has an established control framework with respect to the measurement of fair values. The finance team has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values and reports directly to the Company's Chief Financial Officer.

The management of the Company regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the valuation team assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of the Accounting Standards, including the level in the fair value hierarchy in which the valuations should be classified.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to/ by the Company.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognise transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in Note 31.

#### F. Current - non-current classification

#### Asset

The Company classifies an asset as current asset when:

- it expects to realise the asset, or intends to sell or consume it, in its normal operating cycle;
- it holds the asset primarily for the purpose of trading;
- it expects to realise the asset within twelve months after the reporting period; or
- the asset is cash or a cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

#### Liabilities

A liability is classified as current when:

(All amounts in ₹Lakhs, unless otherwise stated)

- it expects to realise the asset, or intends to sell or consume it, in its normal operating cycle;
- it holds the liability primarily for the purpose of trading;
- the liability is due to be settled within twelve months after the reporting period; or
- it does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. The Company's normal operating cycle is twelve months.

#### 1.2 Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these standalone financial statements.

#### a. Foreign currency transaction

Transactions in foreign currencies are translated into the functional currency of the Company at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Foreign currency exchange differences are generally recognised in profit or loss, except foreign currency exchange differences arising from the translation of the following items which are recognised in OCI.

- an investment in equity securities designated as at FVOCI;
- financial liability designated as a hedge of the net investment in a foreign operation to the extent that the hedge is effective; and
- qualifying cash flow hedges to the extent that the hedges are effective.

#### b. Revenue from contracts with customer

Revenue is measured based on the consideration specified in a contract with a customer. The Company recognises revenue when it transfers control over a good or service to a customer.

#### i. Sale of products

Revenue from sale of products is recognised when control of the products being sold is transferred to customers and there are no longer any unfulfilled obligations. The performance obligations in contract with customers are fulfilled at the time of dispatch, delivery or upon formal customer acceptance depending on delivery terms. Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of discount) allocated to that performance obligation. Revenue excludes taxes or duties collected on behalf of the government.

For contracts that permit the customer to return an item, revenue is recognised to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur. Therefore, the amount of revenue recognised is adjusted for expected returns, which are estimated based on the historical data. In these circumstances, a refund liability and a right to recover returned goods asset are recognised.

The right to recover returned goods asset is measured at the former carrying amount of the inventory less any expected costs to recover goods. The refund liability is included in other current liabilities (Refer Note 20) and the right to recover returned

(All amounts in ₹Lakhs, unless otherwise stated)

goods is included in inventory (Refer Note 8). The Company reviews its estimate of expected returns at each reporting date and updates the amounts of the asset and liability accordingly.

#### ii Sale of services

Revenue from providing services is recognised in the accounting period in which services are rendered.

Revenue from the maintenance contracts embedded in original sale contracts is recognised over the time. The amount is arrived at by computing the ratio between the number of services provided/lapsed in the current period and the total number of services expected to be provided under each contract.

Revenue from the sale of extended warranties embedded in the original sales contracts are recognized over the life of the contract and matched to related costs.

#### iii. Disaggregation of revenue

The Company disaggregates revenue from contracts with customers by nature of goods and service. Refer Note 40.

#### iv. Contract liabilities

The Company recognises contract liabilities for consideration received in respect of unsatisfied performance obligations and reports these amounts as other liabilities. Advance received from customer and deferred revenue are included in contract liabilities.

#### c. Employee benefits

#### i. Short-term employee benefits

Short-term employee benefits are measured on an undiscounted basis and expensed as the related service is provided. A liability is recognised for the amount expected to be paid under short-term cash bonus, if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

#### ii. Defined contribution plan

A defined contribution plan is a post-employment benefit plan where the Company's legal or constructive obligation is limited to the amount that it contributes to a separate legal entity.

The Company makes specified monthly contributions towards Government administered provident fund scheme.

Obligations for contributions to defined contribution plan are expensed as an employee benefits expense in the Standalone Statement of Profit and Loss in period in which the related service is provided by the employee. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

#### iii. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan ('the asset ceiling'). To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised immediately in OCI. The Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying

(All amounts in ₹Lakhs, unless otherwise stated)

the discount rate determined by reference to market yields at the end of the reporting period on government bonds. This rate is applied on the net defined benefit liability (asset), both as determined at the start of the annual reporting period, taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognised immediately in profit or loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

#### iv. Other long-term employee benefits - compensated absences

Accumulated absences expected to be carried forward beyond twelve months is treated as long-term employee benefit for measurement purposes. The Company's net obligation in respect of other long-term employee benefit of accumulating compensated absences is the amount of future benefit that employees have accumulated at the end of the year. That benefit is discounted to determine its present value. The obligation is measured annually by a qualified actuary using the projected unit credit method. Remeasurements are recognised in profit or loss in the period in which they arise.

The obligations are presented as current liabilities in the Standalone Balance Sheet if the Company does not have an unconditional right to defer the settlement for at least twelve months after the reporting date.

#### v. Termination benefits

Termination benefits are expensed at the earlier of when the Company can no longer withdraw the offer of those benefits and when the Company recognises costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the reporting date, then they are discounted.

#### d. Government grants

The Company recognise an unconditional government grant related to export of sales in profit or loss as other operating revenue, when the grant becomes receivable. Other government grants related to assets, including non-monetary grants, are initially recognised as deferred income at fair value if there is reasonable assurance that they will be received, and the Company will comply with the conditions associated with the grant. Grants related to the acquisition of assets are recognised in profit or loss as other income on a systematic basis over the useful life of the asset.

Grants that compensate the Company for expenses incurred are recognised in profit or loss as other income on a systematic basis in the periods in which the expenses are recognised, unless the conditions for receiving the grant are met after the related expenses have been recognised. In this case, the grant is recognised when it becomes receivable.

#### e. Recognition of dividend income, interest income or expense

Dividend income is recognised in profit or loss on the date on which the Company's right to receive payment is established. Interest income or expense is recognised using the effective interest method.

The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of the financial asset; or
- the amortised cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability. However, for financial assets that have become creditimpaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

#### f. Income tax

Income tax expense comprises current tax and deferred tax. It is recognised in profit or loss except to the extent that it relates

(All amounts in ₹Lakhs, unless otherwise stated)

to items recognised directly in equity or in other comprehensive income.

The Company has determined that interest and penalties related to income taxes, including uncertain tax treatments, do not meet the definition of income taxes, and therefore accounted for them under Ind AS 37 "Provisions, Contingent Liabilities and Contingent Assets".

#### i. Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date.

Current tax assets and liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

#### ii. Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of transaction;
- temporary differences related to investments in subsidiaries to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- taxable temporary differences arising on the initial recognition of goodwill.

Temporary differences in relation to a right-of-use asset and a lease liability for a specific lease are regarded as a net package (the lease) for the purpose of recognising deferred tax.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on the reversal of relevant taxable temporary differences. If the amount of taxable temporary differences is insufficient to recognise a deferred tax asset in full, then future taxable profits, adjusted for reversals of existing temporary differences, are considered, based on the business plans of the Company. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

#### g. Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of inventories is based on the weighted average cost formula and includes expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their present location and condition. In the case of raw materials, cost comprises of cost of purchase. In the case of finished goods and work in progress, cost includes an appropriate share of production overheads based on normal operating capacity.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

(All amounts in ₹Lakhs, unless otherwise stated)

The net realisable value of work-in-progress is determined with reference to the selling prices of related finished goods. Raw materials, components and other supplies held for use in the production of finished products are not written down below cost except in cases when a decline in the price of materials indicates that the cost of the finished products shall exceed the net realisable value.

The comparison of cost and net realisable value is made on an item-by-item basis.

Provision for obsolescence and slow-moving inventory is made based on management's best estimates of net realisable value of such inventories. Obsolete and slow moving items are valued at cost or estimated net realisable value, whichever is lower.

#### h. Property, plant and equipment

#### i. Recognition and measurement

The cost of an item of property, plant and equipment shall be recognised as an asset if, and only if it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

Items of property, plant and equipment (including capital-work-in progress) are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and any accumulated impairment losses. Freehold land is carried at historical cost less any accumulated impairment losses.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

The cost of a self-constructed item of property, plant and equipment comprises the cost of materials and direct labour, any other costs directly attributable to bringing the item to working condition for its intended use, and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

#### ii. Subsequent expenditure

Subsequent expenditure is recognised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably.

#### iii. Depreciation

Depreciation is calculated on the cost of items of property, plant and equipment less their estimated residual values using the straight-line method over their estimated useful lives, and is generally recognised in the Standalone Statement of Profit and Loss. Freehold land is not depreciated.

Depreciation on property, plant and equipment is provided on straight line basis using the lives as mentioned below.

Asset category	Management's estimate of useful life considered by (Years)	Useful life as per Schedule II to the Companies Act, 2013 (Years)
Factory Building	10-30	10-30
Office Building	10-60	10-60
Plant and Machinery	6-30	12-30
Furniture and Fixtures	5-10	10

(All amounts in ₹Lakhs, unless otherwise stated)

Office Equipment	5-15	5
Motor Vehicles	8-10	8-10
Computers	3-5	3-6
Electric Equipment and Fittings	10	10

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate. Based on technical evaluation and consequent advice, the management believes that its estimates of useful lives as given above best represent the period over which management expects to use these assets.

Depreciation on additions/(disposals) is provided on a pro-rata basis i.e. from/ (upto) the date on which asset is ready or use/ (disposed off).

#### iv. Capital work-in-progress

Cost of property, plant and equipment not ready for use as at the reporting date are disclosed as capital work-in-progress.

#### v. Capital advances

Advances paid towards the acquisition of property, plant and equipment, outstanding at each balance sheet date is classified as capital advances under "other non-current assets".

#### vi. De-recognition

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Standalone Statement of Profit and Loss when the asset is derecognised.

#### vii. Transition to Ind AS

As permitted by Ind AS 101, the Company, on transition to Ind AS, had elected to continue with the carrying value under previous GAAP for all of its property, plant and equipment and use that as its deemed cost.

#### i. Intangible assets

#### i. Recognition and measurement

Intangible assets that are acquired are recognised only if it is probable that the expected future economic benefits that are attributable to the asset will flow to the Company and the cost of assets can be measured reliably. The intangible assets are recorded at cost of acquisition including incidental costs related to acquisition and are carried at cost less accumulated amortisation and impairment losses, if any.

#### ii. Subsequent expenditure

Subsequent costs are capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure on intangible assets is recognised in the Standalone Statement of Profit and Loss, as incurred.

#### iii. Amortisation

Amortisation is calculated to write off the cost of intangible assets less their estimated residual values using the straightline method over their estimated useful lives and is generally recognised in depreciation and amortisation expense in the Standalone Statement of Profit and Loss.

Asset category	Management's estimate of useful life considered by (Years)
Computer software	3-5
Technical know how	3-5

(All amounts in ₹Lakhs, unless otherwise stated)

Amortisation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

#### iv. Derecognition

An item of intangible assets is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Standalone Statement of Profit and Loss when the asset is derecognised.

#### v. Transition to Ind AS

As permitted by Ind AS 101, the Company, on transition to Ind AS, had elected to continue with the carrying value under previous GAAP for all of its intangible assets and use that as its deemed cost.

#### J. Investment properties

#### i. Recognition and measurement

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes. Upon initial recognition, an investment property is measured at cost, including related transaction costs. Subsequent to initial recognition, investment property is measured at cost less accumulated depreciation and accumulated impairment losses, if any.

Investment property is derecognised either when it has been disposed of or when it is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gain or loss on disposal of investment property (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognised in profit or loss.

#### ii. Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably.

#### iii. Depreciation

Based on technical evaluation and consequent advice, the management believes a period of 60 years as representing the best estimate of the period over which investment property (which is quite similar) is expected to be used. Accordingly, the Company depreciates investment property over a period of 60 years on a straight-line basis.

#### iv. Reclassification from / to investment property

Transfers to (or from) investment property are made only when there is a change in use. Transfers between investment property, owner-occupied property and inventories do not change the carrying amount of the property transferred and they do not change the cost of that property for measurement or disclosure purposes.

#### v. Fair value disclosure

The fair values of investment property is disclosed in the Note 3. Fair values is determined by an independent valuer who holds a recognised and relevant professional qualification and is a registered valuer.

#### vi. Transition to Ind AS

On transition to Ind AS, the Company had elected to continue with the carrying value under previous GAAP for all of its investment property and use that as its deemed cost.

(All amounts in ₹Lakhs, unless otherwise stated)

#### k. Financial instruments

#### i. Recognition and initial measurement

Trade receivables and debt securities issued (comprise of short-term commercial papers) are initially recorded when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provision of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus or minus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

Financial assets other than trade receivables includes investment in bonds and debentures, alternative investment fund, portfolio management service, limited liability partnership firm, shares and mutual funds, security deposits paid, finance lease receivables, bank deposits, interest receivables, cash and cash equivalents and loans to employees.

Financial liabilities other than debt securities include long-term and short-term borrowings, cash credit, credit card payables, trade payables, unclaimed dividend, security deposits received, capital creditors, accrued salaries and benefit.

#### ii. Classification and subsequent measurement

#### **Financial assets**

On initial recognition, a financial asset is classified as measured at:

- at amortised cost;
- Financial assets at fair value through other comprehensive income (FVOCI) debt investment;
- Financial assets at fair value through other comprehensive income (FVOCI) equity investment; or
- Financial assets at fair value through profit or loss (FVTPL).

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

A financial asset is measured at the amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- it contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within the business model whose objective is achieved both by collecting contractual cash flows and selling the financial assets; and
- it contractual terms give rise on specified dates to cash flows that are SPPI on the principal amount outstanding.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all investments in mutual funds, portfolio management services and alternative investment fund (Refer Note 5) and foreign exchange derivative assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI or at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

(All amounts in ₹Lakhs, unless otherwise stated)

#### Financial assets – Business model assessment

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Company's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

#### Financial assets - Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable-rate features;
- prepayment and extension features; and
- terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable compensation for early termination of the contract. Additionally, for a financial asset acquired at a discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition

(All amounts in ₹Lakhs, unless otherwise stated)

#### Financial assets - Subsequent measurement and gains and losses

#### **Financial assets at FVTPL**

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

#### Financial assets at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

#### Debt investments at FVOCI

These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

#### Equity investments at FVOCI

These assets are subsequently measured at fair value. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to profit or loss.

#### Financial liabilities – Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. This includes foreign exchange derivative liabilities. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

#### iii. Derecognition

#### **Financial assets**

The Company derecognises a financial asset when:

- the contractual rights to the cash flows from the financial asset expire; or
- it transfers the rights to receive the contractual cash flows in a transaction in which either:
  - substantially all of the risks and rewards of ownership of the financial asset are transferred; or
  - the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset

The Company enters into transactions whereby it transfers assets recognised on its Standalone Balance Sheet but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognised.

(All amounts in ₹Lakhs, unless otherwise stated)

#### **Financial liabilities**

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled or expire. The Company also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognised in profit or loss

#### iv. Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the Standalone Balance Sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

#### I. Impairment

#### i. Non-derivative financial assets

#### Financial instruments and contract assets

The Company recognises loss allowances for ECLs on:

- financial assets measured at amortised cost;
- debt investments measured at FVOCI; and
- contract assets.

The Company also recognises loss allowances for ECLs on finance lease receivables, which are disclosed as financial assets.

The Company measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for trade and finance lease receivables and loans are always measured at an amount equal to lifetime ECLs.

Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

12-month expected credit losses are the portion of expected credit losses that result from default events that are possible within 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which the Company is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment, that includes forward-looking information.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than 2 years past due.

The Company considers a financial asset to be in default when:

(All amounts in ₹Lakhs, unless otherwise stated)

- the debtor is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realising security (if any is held); or
- the financial asset is more than two years past due.

#### **Measurement of ECLs**

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive).

ECLs are discounted at the effective interest rate of the financial asset.

#### **Credit-impaired financial assets**

At each reporting date, the Company assesses whether financial assets carried at amortised cost and debt securities at FVOCI are credit impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the debtor;
- a breach of contract such as a default or being more than two years thirty days past due;
- the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise;
- it is probable that the debtor will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for a security because of financial difficulties.

#### Presentation of allowance for ECL in the Standalone Balance Sheet

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets. For debt securities at FVOCI, the loss allowance is charged to profit or loss and is recognised in OCI.

#### Write-off

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. For individual customers, the Company has a policy of writing off the gross carrying amount when the financial asset is three years past due based on historical experience of recoveries of similar assets. For corporate customers, the Company individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

#### ii. Impairment of non-financial assets

At each reporting date, the Company reviews the carrying amounts of its non-financial assets (other than investment property, inventories, contract assets and deferred tax assets) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount of an individual asset or CGU is the greater of its value in use and its fair value less costs of disposal. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount.

(All amounts in ₹Lakhs, unless otherwise stated)

Impairment losses are recognised in profit or loss. They are allocated first to reduce the carrying amount of goodwill, if any allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss in respect of goodwill is not subsequently reversed. In respect of other assets for which impairment loss has been recognised in prior periods, the Company reviews at each reporting date whether there is any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or recognised if no impairment loss had been recognised.

#### m. Provisions (other than employee benefits)

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Expected future operating losses are not provided for.

Where the Company expects some or all of the expenditure required to settle a provision will be reimbursed by another party, the reimbursement is recognised when, and only when, it is virtually certain that reimbursement will be received if the entity settles the obligation. The reimbursement is treated as a separate asset.

Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

#### Warranties

A provision for warranties is recognised when the underlying products or services are sold, based on historical warranty data and a weighting of possible outcomes against their associated probabilities.

#### n. Leases

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

#### i. As a lessee

At commencement or on modification of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices. However, for the leases of property the Company has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

The Company recognised a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently amortised using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term, unless the lease transfers ownership of the underlying asset to the Company by the end of the lease term or the cost of the right-of-use asset reflects that the Company will exercise a purchase option. In that case the right-of-use asset will be amortised over the useful life of the underlying asset, which is determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

(All amounts in ₹Lakhs, unless otherwise stated)

The Company determines its incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and type of the asset leased.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and

• the exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Company is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, if the Company changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-ofuse asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Company presents right-of-use assets that do not meet the definition of investment property in 'property, plant and equipment' and lease liabilities separately in the Standalone Balance Sheet within 'Financial Liabilities'.

#### Short-term leases and leases of low-value assets

The Company has elected not to recognise right-of-use assets and lease liabilities for leases of low-value assets and short-term leases. The Company recognised the lease payments associated with these leases as an expense in profit or loss on a straight-line basis over the lease term.

#### ii. As a lessor

At inception or on modification of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices.

When the Company acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease.

To classify each lease, the Company makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease. As part of this assessment, the Company considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease.

If an arrangement contains lease and non-lease components, then the Company applies Ind AS 115 to allocate the consideration in the contract.

The Company applies the derecognition and impairment requirements in Ind AS 109 to the net investment in the lease. The Company further regularly reviews estimated unguaranteed residual values used in calculating the gross investment in the lease.

(All amounts in ₹Lakhs, unless otherwise stated)

The Company recognised lease payments received under operating leases as income on a straight-line basis over the lease term as part of 'other income'.

#### o. Borrowing costs

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are recognised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred.

#### p. Contingent liabilities

Contingent liability is a possible obligation arising from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity or a present obligation that arises from past events but is not recognised because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability. The Company does not recognise a contingent liability but discloses its existence in the standalone financial statements.

#### **Contingent assets**

Contingent asset is not recognised in standalone financial statements since this may result in the recognition of income that may never be recognised. However, when the recognition of income is virtually certain, then the related asset is not a contingent asset and is recognised.

Provisions, contingent liabilities and contingent assets are reviewed at each standalone balance sheet date.

#### q. Earnings per share

#### i. Basic Earnings Per Share

Basic earnings per share is calculated by dividing the profit (or loss) attributable to the owners of the Company by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for bonus issue, bonus element in a rights issue to existing shareholders, share split and reverse share split (consolidation of shares).

#### ii. Diluted Earnings Per Share

Diluted earnings per share is computed by dividing the profit (considered in determination of basic earnings per share) after considering the effect of interest and other financing costs or income (net of attributable taxes) associated with dilutive potential equity shares by the weighted average number of equity shares considered for deriving basic earnings per share adjusted for the weighted average number of equity shares that would have been issued upon conversion of all dilutive potential equity shares.

#### r. Investment in subsidiaries

Investment in subsidiaries (under Ind AS 27) are carried at cost, less any impairment in the value of investment, in these standalone financial statements.

#### s. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker is considered to be the Chairman and Managing Director who makes strategic decisions and is responsible for allocating resources and assessing performance of the operating segments.

#### t. Cash and cash equivalents

Cash and cash equivalents comprises of cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

(All amounts in ₹Lakhs, unless otherwise stated)

#### u. Equity share capital

Incremental costs directly attributable to the issue of equity shares are recognised as a deduction from equity. Income tax relating to transaction costs of an equity transaction is accounted for in accordance with Ind AS 12.

#### v. Dividend distribution

Dividends paid are recognised in the period in which the interim dividends are approved by the Board of Directors of the Company, or in respect of the final dividend when approved by shareholders of the Company.

#### w. Exceptional items

Exceptional items refer to items of income or expense within the Standalone Statement of Profit and Loss from ordinary activities which are non-recurring and are of such size, nature or incidence that their separate disclosure is considered necessary to explain the performance of the Company.

#### x. Standard issued but not yet effective

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2023, as below:

**Ind AS 1 - Presentation of Financial Statements -** This amendment requires the entities to disclose their material accounting policies rather than their significant accounting policies. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Company has evaluated the amendment and the impact of the amendment is insignificant in the standalone financial statements.

**Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors** - This amendment has introduced a definition of 'accounting estimates' and included amendments to Ind AS 8 to help entities distinguish changes in accounting policies from changes in accounting estimates. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Company has evaluated the amendment and there is no impact on its standalone financial statements.

**Ind AS 12 - Income Taxes** - This amendment has narrowed the scope of the initial recognition exemption so that it does not apply to transactions that give rise to equal and offsetting temporary differences. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Company has evaluated the amendment and there is no impact on its standalone financial statements.

# 30. Employee benefit expenses

# A. Defined Benefit Plans

In accordance with the Payment of Gratuity Act, 1972, the Company provides for gratuity, as defined benefit plan. The gratuity plan provides for a lump sum payment to the employees at the time of separation from the service on completion of vested year of employment i.e. five years. The liability of gratuity plan is provided based on actuarial valuation as at the end of each financial year based on which the Company contributes the ascertained liability to Life Insurance Corporation of India by whom the plan assets are maintained.

These plans typically expose the Company to actuarial risks such as: investment risk, inherent interest rate risk, longevity risk and salary risk.

# **Investment Risk**

The present value of the defined benefit plan liability (denominated in Indian Rupee) is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds.

# Interest Rate Risk

The defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase.

# Longevity Risk

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

# Salary Risk

Higher than expected increases in salary will increase the defined benefit obligation.

The present value of the defined benefit obligation, and the related current service cost, were measured using the projected unit credit method.

## The principal assumptions (demographic and financial) used for the purposes of the actuarial valuations were as follows :-

Particulars	For the year ended March 31, 2023	For the year ended March 31, 2022

# B) Fair value hierarchy

The fair value of financial instruments as referred to in note (A) above has been classified into three category depending on the inputs used in valuation technique. The hierarchy gives the highest priority to quoted price in active markets for identical assets or liabilities [Level 1 measurements] and lowest priority to unobservable inputs [Level 3 measurements].

## The categories used are as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

**Level 2:** Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The other non current financial assets represents finance lease receivables, bank deposits (due for remaining maturity after twelve months from the reporting date), and security deposits receivables, the carrying values of which approximates the fair values as on the reporting date. The valuation technique used is discounted cash flow with no significant unobservable inputs.

\*\*The lease liabilities represent non-current and current lease liabilities the carrying value of which approximates the fair values as on the reporting date.

(All amounts in ₹Lakhs, unless otherwise stated)

# Valuation process and technique used to determine fair value

The fair value of investments in mutual fund units is based on the net asset value (NAV) as stated by the issuers of these mutual fund units in the published statement as at the Balance Sheet date. The fair value of investment in quoted debentures and bonds is determined on the basis of quoted price as at Balance sheet date.

The valuation of portfolio management service and alternative investment fund is based on the underlying assets wherein investments have been made. The investments are made either in listed securities or fixed deposits, therefore the fair value is based on the quoted price of underlying investment in case of listed security and carrying amount in case of fixed deposit.

# Transfers between Levels 1, Level 2 and Level 3

There has been no transfer between level 1, level 2 and level 3 for the years ended March 31, 2023 and March 31, 2022.

## **C)** Financial Risk Management

The Company's activities expose it to market risk, liquidity risk and credit risk. This note explains the source of risk which the entity is exposed to and how the entity manages the risk and the related impact in the financial statements.

The Company's Board of Directors has overall responsibility for the establishment and oversight of the company's risk management framework.

The Company has exposure to the following risks arising from financial instruments:-

- credit risk
- liquidity risk
- market risk".

The Company's risk management is carried out by a treasury department under the supervision of Chief Financial Officer of the Company. The treasury department identifies and evaluates financial risks. The board of directors provides written principles for overall risk management, as well as policies covering specific areas, such as interest rate risk, liquidity risk etc. The Audit Committee of the Company oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company.

# C.1) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations.

The carrying amounts of financial assets represent the maximum credit exposure.

Particulars	As at March 31, 2023	As at March 31, 2022
Investments (excluding subsidiary companies and partnership firm)	34,865.77	17,924.30
Trade receivables	16,908.91	18,972.54
Loans	65.57	78.00
Cash and cash equivalents	498.90	543.42

Other financial assets	4,251.58	1,817.78
Total	59,332.79	40,194.15

(All amounts in ₹Lakhs, unless otherwise stated)

## Expected credit losses for financial assets other than trade receivables and finance lease receivables

The Company maintains its cash and cash equivalents and bank deposits with reputed banks. The credit risk on these instruments is limited because the counterparties are bank with high credit ratings assigned by domestic credit rating agencies. Hence, the credit risk associated with cash and cash equivalent and bank deposits is relatively low.

Loan comprises loans given to employees, which would be adjusted against salary of the employees and hence credit risk associated with such amount is also relatively low.

The Company maintains its investment in bonds and debentures with reputed financial institutions and corporates. The credit risk on these instruments is limited because the counterparties are financial institutions and corporates with high credit ratings assigned by domestic credit rating agencies. Hence, the credit risk associated with these investments is relatively low. Investments in Mutual funds, Alternative Investment Fund, Shares, Portfolio Management Service and Partnership firm are measured at mark to market hence, the credit risk associated with these investments already considered in valuation as on reporting date.

Security deposits are given for operational activities of the Company and will be returned to the Company as per the contracts with respective vendors. The Company monitors the credit ratings of the counterparties on regular basis. These security deposits carry very minimal credit risk based on the financial position of parties and Company's historical experience of dealing with the parties.

## Expected credit losses for trade receivables and finance lease receivable

Credit risks related to receivables is managed by each business unit subject to the Company's policy, procedures and control relating to customer credit risk management. Outstanding customer receivables are regularly monitored. An impairment analysis is performed at each reporting date on trade receivables and finance lease receivable by using lifetime expected credit losses as per simplified approach wherein the weighted average loss rates are analysed from the historical trend of defaults relating to each business segment. Such provision matrix has been considered to recognize lifetime expected credit losses on trade receivables and finance lease receivables and finance lease receivables and finance lease receivables and finance lease receivables are met). The Company evaluates the concentration of risk with respect to trade receivables and finance lease receivable as low, since its customers are from various industries, jurisdictions and operate in independent markets. These receivables are written off when there is no reasonable expectation of recovery.

There are no receivables which are in default as at year end and the management believes that these are collectible in full based on historical payment behavior. For weighted average loss rate disclosures, Refer Note 9.

## Movement in the allowance for impairment in respect of trade receivables:

# C.2) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting its obligations associated with financial liabilities. The investment philosophy of the Company is capital preservation and liquidity in preference to returns. The Company consistently generates sufficient cash flows from operations and has access to multiple sources of funding to meet the financial obligations and maintain adequate liquidity for use. The Company manages liquidity risk by maintaining adequate reserve, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

# Maturity profile of financial liabilities

The table below provides details regarding the remaining contractual maturities of financial liabilities at the reporting date based on contractual undiscounted payments.

# C.3) Market risk

Market risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risk namely : currency risk and interest rate risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

# **Price risk**

The Company invests in mutual funds, alternative investment fund, Shares, portfolio management service and partnership firm, which are susceptible to market price risk arising from uncertainties about future values of the investment securities. In order to manage its price risk arising from investments, the Company diversifies its portfolio in accordance with the limits set by the risk management policies.

# Foreign currency risk

Currency risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Exposure arises primarily due to exchange rate fluctuations between the functional currency and other currencies from the Company's operating, investing and financing activities. The Company undertakes transactions denominated in foreign currency (mainly US Dollar and Euro) which are subject to the risk of exchange rate fluctuations. Considering the low volume of foreign currency transactions, the Company's exposure to foreign currency risk is limited hence the Company does not use any derivative instruments to manage its exposure.

# Foreign currency risk exposure in USD:

The Company's exposure to foreign currency risk at the end of the reporting period expressed in ₹, are as follows

Particulars	As at March 31, 2023	As at March 31, 2022

(All amounts in ₹Lakhs, unless otherwise stated)

# C.4) Interest Rate Risk

The Company's interest rate risk arises from debt borrowings. Borrowings issued at variable rates expose the Company to cash flow interest rate risk, whilst borrowings issued at fixed rates expose the Company to fair value interest rate risk. The risks are managed by monitoring an appropriate mix between fixed and floating rate borrowings.

**Exposure to interest rate risk:-** The interest rate profile of the Company's interest-bearing financial instruments as reported to the management of the Company is as follows.

Particulars	As at March 31, 2023	As at March 31, 2022
Variable rate borrowings		
Short term borrowings from bank	620.32	2,924.47
Total borrowings	620.32	2,924.47

# Fair value sensitivity analysis of interest rate

The Company does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

A reasonably possible change of 50 basis points (bps) in interest rates at the reporting date would have increased/ (decreased) equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant.

# Cash flow sensitivity analysis for variable-rate instruments for the year ended March 31, 2023

# Independent Auditor's Report To the Members of Action Construction Equipment Limited

**Report on the Audit of the Consolidated Financial Statements** 

#### Opinion

We have audited the consolidated financial statements of Action Construction Equipment Limited (herein referred to as "the Holding Company") and its subsidiaries (the Holding & its subsidiaries together referred to as "the Group" which comprise the consolidated balance sheet as at 31 March 2023, and the consolidated statement of profit and loss (including other comprehensive income), consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information (herein referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of report of the other auditor on separate financial statements of one subsidiary as was audited by the other auditor, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31 March 2023, of its consolidated profit and other comprehensive income, consolidated changes in equity and consolidated cash flows for the year then ended.

#### **Basis for Opinion**

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the relevant provisions of the Act, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence obtained by us along with the consideration of report of the other auditor referred to in paragraph (a) of the "Other Matters" section below, is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

#### **Emphasis of Matter**

We draw attention to Note 46 to the consolidated financial statements, which sets out that the comparative information presented as at 01 April 2021 and as at and for the year ended 31 March 2022 has been restated.

Our opinion is not modified in respect of this matter.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment and based on the consideration of report of other auditor on separate financial statements of component audited by them, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

#### **Description of Key Audit Matter**

See Note 22 to consolidated financial statements	
The key audit matter	How the matter was addressed in our audit
Revenue recognition (Sale of products)	Our audit procedures included:
As disclosed in Note 22 to the consolidated fianancial statements, the Group's revenue from sale of products for the year ended 31 March 2023 was ₹ 213,108.79 lakhs.	<ul> <li>Assessed the appropriateness of the accounting policy for revenue recognition as per the relevant accounting standard;</li> </ul>
Revenue is recognized upon transfer of control of promised product to the customers and when the collection of consideration by the Group is "probable". In specifically, revenue from sale of products is recognised at a point in time when performance obligation is satisfied and is based on the transfer of control to the customer as per terms of the contract.	relation to revenue recognition and tested the operating effectiveness of such controls for a sample of transactions;

#### **Other Information**

The Holding Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Holding Company's annual report, but does not include the financial statements and auditor's report thereon. The Holding Company's annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

#### Management's and Board of Directors'/Partners' Responsibilities for the Consolidated Financial Statements

The Holding Company's Management and Board of Directors are responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Act that give a true and fair view of the consolidated state of affairs, consolidated profit/ loss and other comprehensive income, consolidated statement of changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. The respective Management and Board of Directors of the companies/Partners of the partnership firm included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of each company/partnership firm and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Management and Board of Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Management and Board of Directors of the companies/Partners of the partnership firm included in the Group are responsible for assessing the ability of each company/partnership firm to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors/Partners either intends to liquidate the company/partnership firm or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies/Partners of the partnership firm included in the Group are responsible for overseeing the financial reporting process of each company/partnership firm.

#### Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design
  and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis
  for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as
  fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting in
  preparation of consolidated financial statements and, based on the audit evidence obtained, whether a material uncertainty exists
  related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a
  material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated
  financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence
  obtained up to the date of our auditor's report. However future events or conditions may cause the Group to cease to continue as a
  going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial statements of entity or business activity within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of entity of which we are the independent auditor. For the other entity included in the consolidated financial statements, which has been audited by other auditor, such other auditor remain responsible for the direction, supervision and performance of the audit carried out by them. We remain solely responsible for our audit opinion. Our responsibilities in this regard are further described in paragraph (a) of the section titled "Other Matters" in this audit report.

We communicate with those charged with governance of the Holding Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **Other Matter**

a. We did not audit the financial statements of one subsidiary, whose financial statements reflect total assets (before consolidation adjustments) of ₹443.18 lakhs as at 31 March 2023, total revenues (before consolidation adjustments) of ₹2,371.32 lakhs and net cash inflows (before consolidation adjustments) amounting to ₹3.97 lakhs for the year ended on that date, as considered in the consolidated financial statements. These financial statements has been audited by other auditor whose report has been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of this subsidiary, and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiary is based solely on the report of the other auditor.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of this matter with respect to our reliance on the work done and the report of other auditor.

b. The financial statements of two subsidiaries, whose financial information reflects total assets (before consolidation adjustments) of ₹2,123.64 lakhs as at 31 March 2023, total revenues (before consolidation adjustments) of ₹2,431.14 lakhs and net cash inflows (before consolidation adjustments) amounting to ₹1,616.32 lakhs for the year ended on that date, as considered in the consolidated financial statements, have not been audited either by us or by other auditor. These unaudited financial information have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of this matter with respect to the financial information certified by the Management.

c. The consolidated financial statements of the Group as at and for the years ended 31 March 2022 and 31 March 2021 (from which the balance sheet as at 1 April 2021 has been derived), excluding the adjustments described in Note 46 to the consolidated financial statements, were audited by the another auditor who expressed an unmodified opinion on those consolidated financial statements on 23 May 2022 and 28 May 2021, respectively.

As part of our audit of the consolidated financial statements as at and for the year ended 31 March 2023, we audited the adjustments described in Note 46 that were applied to restate the comparative information presented as at and for the year ended 31 March 2022 and the consolidated balance sheet as at 1 April 2021. We were not engaged to audit, review, or apply any procedures to the consolidated financial statements for the years ended 31 March 2022 or 31 March 2021 (not presented herein) or to the consolidated balance sheet as at 1 April 2021, other than with respect to the adjustments described in Note 46 to the consolidated financial statements. Accordingly, we do not express an opinion or any other form of assurance on those respective consolidated financial statements taken as a whole. However, in our opinion, the adjustments described in Note 46 are appropriate and have been properly applied.

Our opinion is not modified in respect of this matter.

#### **Report on Other Legal and Regulatory Requirements**

#### Annexure B to the Independent Auditors' Report on the Consolidated Financial Statements of Action Construction Equipment Limited for the year ended 31 March 2023

Report on the internal financial controls with reference to the aforesaid consolidated financial statements under Clause (i) of Subsection 3 of Section 143 of the Act

#### (Referred to in paragraph 2(A)(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

#### Opinion

In conjunction with our audit of the consolidated financial statements of Action Construction Equipment Limited (herein after referred to as "the Holding Company") as of and for the year ended 31 March 2023, we have audited the internal financial controls with reference to financial statements of the Holding Company and such company incorporated in India under the Act which is its subsidiary company, as of that date.

In our opinion and based on the consideration of report of the other auditor on internal financial controls with reference to financial statements of subsidiary company, as was audited by the other auditor, the Holding Company and such company incorporated in India which is its subsidiary company, have, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2023, based on the internal financial controls with reference to financial statements criteria established by such companies considering the essential components of such internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the institute of Chartered Accountants of India (the "Guidance Note").

#### Management's and Board of Director's Responsibilities for Internal Financial Controls.

The respective Company's Management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the respective company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

#### Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditor of the relevant subsidiary company in terms of their report referred to in the other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to financial statements.

#### Meaning of Internal Financial Controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary

to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

#### Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### **Other Matter**

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to financial statements in so far as it relates to one subsidiary company, which is a company incorporated in India, is based on the corresponding report of the auditor of such company incorporated in India.

Our opinion is not modified in respect of this matter.

#### 1.1 GROUP OVERVIEW

Action Construction Equipment Limited ("the Company") is a public limited company and domiciled in India, which was incorporated on January 13, 1995, and having its registered office at Dudhola Link Road, Village Dudhola, Palwal - 121102, Haryana, India. The Company is listed on BSE Limited ("BSE") and National Stock Exchange of India Limited ("NSE").

These consolidated financial statements comprise the Company and its subsidiaries (together referred to as the 'Group') for the year ended March 31, 2023. The Group is engaged in the business of manufacturing and marketing of Hydraulic Mobile Cranes, Mobile Tower Cranes, Crawler Cranes, Truck Mounted Cranes, Material Handling Equipments like Forklifts, Road Construction Equipments like Backhoe loaders, Compactors, Motor graders and Agriculture Equipments like Tractors, Harvesters, Rotavators etc

#### 1.2 Basis of preparation

#### A. Statement of compliance

These consolidated financial statements have been prepared in accordance with the Indian Accounting Standards ("Ind AS") as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of the Companies Act, 2013("Act").

The consolidated financial statements were approved for issue by the Board of Directors of the Group on May 30, 2023. Details of the Group's accounting policies are included in Note 1.3.

#### B. Functional and presentation currency

These consolidated financial statements are presented in Indian Rupees (INR), which is also the Group's functional currency. All amounts have been rounded to the nearest lakhs, unless otherwise indicated.

#### C. Basis of measurement

These consolidated financial statements have been prepared under the historical cost basis except certain financial assets, financial liabilities and plan assets, which are measured on an alternative basis on each reporting date. Refer Note 32.

#### D. Use of judgements and estimates

In preparing these consolidated financial statements, management has made judgements and estimates that affect the application of the Group's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

#### Judgments

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognised in the consolidated financial statements is included in the following note:

Note 1.3.0 - Judgement required to whether an arrangement contains a lease or to ascertain lease classification

#### Assumption and estimation uncertainties

Information about assumptions and estimation uncertainties at the reporting date that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial year is included in the following notes:

- Notes 1.3.c.i revenue recognition: estimate of expected returns;
- Note 1.3.d- measurements of defined benefit obligations: key actuarial assumptions;
- Note 1.3.i, 1.3.j and 1.3.k measurement of useful life and residual values of property, plant and equipment and investment property and useful life of intangible assets;
- Note 1.3.I Fair value measurement of financial instruments;

- Note 1.3.n and 1.3.q Recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources; and
- Note 1.3.l and 1.3.m Impairment of financial and non-financial assets.

#### E. Measurement of fair values

A number of the Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Group has an established control framework with respect to the measurement of fair values. The finance team has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values and reports directly to the Group's Chief Financial Officer.

The management of the Group regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the valuation team assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of the Accounting Standards, including the level in the fair value hierarchy in which the valuations should be classified.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to/ by the Group.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognise transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in Note 32.

#### F. Current - non-current classification

#### Asset

The Group classifies an asset as current asset when:

- it expects to realise the asset, or intends to sell or consume it, in its normal operating cycle;
- it holds the asset primarily for the purpose of trading;
- it expects to realise the asset within twelve months after the reporting period; or

• the asset is cash or a cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

#### Liabilities

A liability is classified as current when:

- it expects to realise the asset, or intends to sell or consume it, in its normal operating cycle;
- it holds the liability primarily for the purpose of trading;
- the liability is due to be settled within twelve months after the reporting period; or
- it does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. The Group normal operating cycle is twelve months.

#### 1.3. Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these consolidated financial statements

#### a. Basis of consolidation

#### i) Subsidiaries

Subsidiaries are entities controlled by the Group. The Group 'controls' an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control ceases.

Consolidation procedure followed is as under:

Items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries are combined on like to like basis. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognized in the consolidated financial statements at the acquisition date.

#### ii) Non-controlling interests (NCI)

NCI are measured initially at their proportionate share of the acquiree's identifiable net assets at the date of acquisition.

Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

#### iii) Loss of control

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured at fair value when control is lost.

#### iv) Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses (except for foreign currency transaction gains or losses) arising from intra-group transactions, are eliminated. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

#### b. Foreign currency transaction

#### i) Foreign currency transactions

Transactions in foreign currencies are translated into the functional currency of the Group at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Foreign currency exchange differences are generally recognised in profit or loss, except foreign currency exchange differences arising from the translation of the following items which are recognised in OCI.

- an investment in equity securities designated as at FVOCI;
- financial liability designated as a hedge of the net investment in a foreign operation to the extent that the hedge is effective; and
- qualifying cash flow hedges to the extent that the hedges are effective.

#### ii) Foreign operations

The assets and liabilities of foreign operations (subsidiary), including goodwill and fair value adjustments arising on acquisition, are translated into INR at the exchange rates at the reporting date. The income and expenses of foreign operations are translated into INR at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.

#### c. Revenue from contracts with customer

Revenue is measured based on the consideration specified in a contract with a customer. The Group recognises revenue when it transfers control over a good or service to a customer.

#### i) Sale of products

Revenue from sale of products is recognised when control of the products being sold is transferred to customers and there are no longer any unfulfilled obligations. The performance obligations in contract with customers are fulfilled at the time of dispatch, delivery or upon formal customer acceptance depending on delivery terms. Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of discount) allocated to that performance obligation. Revenue excludes taxes or duties collected on behalf of the government.

For contracts that permit the customer to return an item, revenue is recognised to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur. Therefore, the amount of revenue recognised is adjusted for expected returns, which are estimated based on the historical data. In these circumstances, a refund liability and a right to recover returned goods asset are recognised.

The right to recover returned goods asset is measured at the former carrying amount of the inventory less any expected costs to recover goods. The refund liability is included in other current liabilities (Refer Note 21) and the right to recover returned goods is included in inventory (Refer Note 8). The Group reviews its estimate of expected returns at each reporting date and updates the amounts of the asset and liability accordingly.

#### ii. Sale of services

Revenue from providing services is recognised in the accounting period in which services are rendered.

Revenue from the maintenance contracts embedded in original sale contracts is recognised over the time. The amount is arrived at by computing the ratio between the number of services provided/lapsed in the current period and the total number of services expected to be provided under each contract.

#### iii. Disaggregation of revenue

The Group disaggregates revenue from contracts with customers by nature of goods and service. Refer Note 41.

#### iv. Contract liabilities

The Group recognises contract liabilities for consideration received in respect of unsatisfied performance obligations and reports these amounts as other liabilities. Advance received from customer and deferred revenue are included in contract liabilities.

#### d. Employee benefits

#### i. Short-term employee benefits

Short-term employee benefits are measured on an undiscounted basis and expensed as the related service is provided. A liability is recognised for the amount expected to be paid under short-term cash bonus, if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

#### ii. Defined contribution plan

A defined contribution plan is a post-employment benefit plan where the Group legal or constructive obligation is limited to the amount that it contributes to a separate legal entity.

The Group makes specified monthly contributions towards Government administered provident fund scheme.

Obligations for contributions to defined contribution plan are expensed as an employee benefits expense in the Consolidated Statement of Profit and Loss in period in which the related service is provided by the employee. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

#### iii. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Group net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Group, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan ('the asset ceiling'). To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised immediately in OCI. The Group determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate determined by reference to market yields at the end of the reporting period on government bonds. This rate is applied on the net defined benefit liability (asset), both as determined at the start of the annual reporting period, taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions

and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognised immediately in profit or loss. The Group recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

#### iv. Other long-term employee benefits - compensated absences

Accumulated absences expected to be carried forward beyond twelve months is treated as long-term employee benefit for measurement purposes. The Group net obligation in respect of other long-term employee benefit of accumulating compensated absences is the amount of future benefit that employees have accumulated at the end of the year. That benefit is discounted to determine its present value. The obligation is measured annually by a qualified actuary using the projected unit credit method. Remeasurements are recognised in profit or loss in the period in which they arise.

The obligations are presented as current liabilities in the Consolidated Balance Sheet if the Group does not have an unconditional right to defer the settlement for at least twelve months after the reporting date.

#### v. Termination benefits

Termination benefits are expensed at the earlier of when the Group can no longer withdraw the offer of those benefits and when the Group recognises costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the reporting date, then they are discounted.

#### e. Government grants

The Group recognise an unconditional government grant related to export of sales in profit or loss as other operating revenue, when the grant becomes receivable. Other government grants related to assets, including non-monetary grants, are initially recognised as deferred income at fair value if there is reasonable assurance that they will be received, and the Group will comply with the conditions associated with the grant. Grants related to the acquisition of assets are recognised in profit or loss as other income on a systematic basis over the useful life of the asset.

Grants that compensate the Group for expenses incurred are recognised in profit or loss as other income on a systematic basis in the periods in which the expenses are recognised, unless the conditions for receiving the grant are met after the related expenses have been recognised. In this case, the grant is recognised when it becomes receivable.

#### f. Recognition of dividend income, interest income or expense

Dividend income is recognised in profit or loss on the date on which the Group right to receive payment is established.

Interest income or expense is recognised using the effective interest method.

The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of the financial asset; or
- the amortised cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability. However, for financial assets that have become creditimpaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

#### g. Income tax

Income tax expense comprises current tax and deferred tax. It is recognised in profit or loss except to the extent that it relates to items recognised directly in equity or in other comprehensive income.

The Group has determined that interest and penalties related to income taxes, including uncertain tax treatments, do not meet the definition of income taxes, and therefore accounted for them under Ind AS 37 "Provisions, Contingent Liabilities and Contingent Assets".

#### i. Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date.

Current tax assets and liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

#### ii. Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of transaction;
- taxable temporary differences arising on the initial recognition of goodwill.

Temporary differences in relation to a right-of-use asset and a lease liability for a specific lease are regarded as a net package (the lease) for the purpose of recognising deferred tax.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on the reversal of relevant taxable temporary differences. If the amount of taxable temporary differences is insufficient to recognise a deferred tax asset in full, then future taxable profits, adjusted for reversals of existing temporary differences, are considered, based on the business plans of the Group. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

#### h. Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of inventories is based on the weighted average cost formula and includes expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their present location and condition. In the case of raw materials, cost comprises of cost of purchase. In the case of finished goods and work in progress, cost includes an appropriate share of production overheads based on normal operating capacity.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

The net realisable value of work-in-progress is determined with reference to the selling prices of related finished goods. Raw materials, components and other supplies held for use in the production of finished products are not written down below cost except in cases when a decline in the price of materials indicates that the cost of the finished products shall exceed the net realisable value.

The comparison of cost and net realisable value is made on an item-by-item basis.

Provision for obsolescence and slow-moving inventory is made based on management's best estimates of net realisable value of such inventories. Obsolete and slow moving items are valued at cost or estimated net realisable value, whichever is lower.

#### i. Property, plant and equipment

#### i. Recognition and measurement

The cost of an item of property, plant and equipment shall be recognised as an asset if, and only if it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably.

Items of property, plant and equipment (including capital-work-in progress) are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and any accumulated impairment losses. Freehold land is carried at historical cost less any accumulated impairment losses.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

The cost of a self-constructed item of property, plant and equipment comprises the cost of materials and direct labour, any other costs directly attributable to bringing the item to working condition for its intended use, and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

#### ii. Subsequent expenditure

Subsequent expenditure is recognised only if it is probable that the future economic benefits associated with the expenditure will flow to the Group and the cost of the item can be measured reliably.

#### iii. Depreciation

Depreciation is calculated on the cost of items of property, plant and equipment less their estimated residual values using the straight-line method over their estimated useful lives, and is generally recognised in the Consolidated Statement of Profit and Loss. Freehold land is not depreciated.

Depreciation on property, plant and equipment is provided on straight line basis using the lives as mentioned below.

Asset category	Management's estimate of useful life considered by (Years)	Useful life as per Schedule II to the Companies Act, 2013 (Years)
Factory Building	10-30	10-30
Office Building	10-60	10-60
Plant and Machinery	6-30	8-15
Furniture and Fixtures	5-10	10
Office Equipment	5-15	5
Motor Vehicles	8-10	8-10
Computers	3-5	3-6
Electric Equipment and Fittings	10	10

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate. Based on technical evaluation and consequent advice, the management believes that its estimates of useful lives as given above best represent the period over which management expects to use these assets.

Depreciation on additions/(disposals) is provided on a pro-rata basis i.e. from/ (upto) the date on which asset is ready or use/ (disposed off).

#### iv. Capital work-in-progress

Cost of property, plant and equipment not ready for use as at the reporting date are disclosed as capital work-in-progress.

#### v. Capital advances

Advances paid towards the acquisition of property, plant and equipment, outstanding at each balance sheet date is classified as capital advances under "other non-current assets".

#### vi. De-recognition

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Consolidated Statement of Profit and Loss when the asset is derecognised.

#### vii. Transition to Ind AS

As permitted by Ind AS 101, the Group, on transition to Ind AS, had elected to continue with the carrying value under previous GAAP for all of its property, plant and equipment and use that as its deemed cost.

#### j. Intangible assets

#### i. Recognition and measurement

Intangible assets that are acquired are recognised only if it is probable that the expected future economic benefits that are attributable to the asset will flow to the Group and the cost of assets can be measured reliably. The intangible assets are recorded at cost of acquisition including incidental costs related to acquisition and are carried at cost less accumulated amortisation and impairment losses, if any.

#### ii. Subsequent expenditure

Subsequent costs are capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure on intangible assets is recognised in the Consolidated Statement of Profit and Loss, as incurred.

#### iii. Amortisation

Amortisation is calculated to write off the cost of intangible assets less their estimated residual values using the straightline method over their estimated useful lives and is generally recognised in depreciation and amortisation on pro-rata basis expense in the Consolidated Statement of Profit and Loss.

Asset category	Management's estimate of useful life considered by (Years)
Computer software	5
Technical know how	5

Amortisation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

#### iv. Derecognition

An item of intangible assets is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Consolidated Statement of Profit and Loss when the asset is derecognised.

#### v. Transition to Ind AS

As permitted by Ind AS 101, the Group, on transition to Ind AS, had elected to continue with the carrying value under previous GAAP for all of its intangible assets and use that as its deemed cost.

#### k. Investment properties

#### i. Recognition and measurement

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes. Upon initial recognition, an investment property is measured at cost, including related transaction costs. Subsequent to initial recognition, investment property is measured at cost less accumulated depreciation and accumulated impairment losses, if any.

Investment property is derecognised either when it has been disposed of or when it is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gain or loss on disposal of investment property (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognised in profit or loss.

#### ii. Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Group and the cost of the item can be measured reliably.

#### iii. Depreciation

Based on technical evaluation and consequent advice, the management believes a period of 60 years as representing the best estimate of the period over which investment property (which is quite similar) is expected to be used. Accordingly, the Group depreciates investment property over a period of 60 years on a straight-line basis.

#### iv. Reclassification from / to investment property

Transfers to (or from) investment property are made only when there is a change in use. Transfers between investment property, owner-occupied property and inventories do not change the carrying amount of the property transferred and they do not change the cost of that property for measurement or disclosure purposes.

#### v. Fair value disclosure

The fair values of investment property is disclosed in the Note 32. Fair values is determined by an independent valuer who holds a recognised and relevant professional qualification and is a registered valuer.

#### vi. Transition to Ind AS

On transition to Ind AS, the Group had elected to continue with the carrying value under previous GAAP for all of its investment property and use that as its deemed cost.

#### I. Financial instruments

#### i. Recognition and initial measurement

Trade receivables and debt securities issued (comprise of short-term commercial papers) are initially recorded when they are originated. All other financial assets and financial liabilities are initially recognised when the Group becomes a party to the contractual provision of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus or minus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

Financial assets other than trade receivables includes investment in bonds and debentures, alternative investment fund, portfolio management service, limited liability partnership firm, shares and mutual funds, security deposits paid, finance lease receivables, bank deposits, interest receivables, cash and cash equivalents and loans to employees.

Financial liabilities other than debt securities include long-term, short-term borrowings, credit card payables, trade payables, unclaimed dividend, security deposits received, capital creditors, accrued salaries and benefit.

#### ii. Classification and subsequent measurement

#### **Financial assets**

On initial recognition, a financial asset is classified as measured at:

- at amortised cost;
- Financial assets at fair value through other comprehensive income (FVOCI) debt investment;
- Financial assets at fair value through other comprehensive income (FVOCI) equity investment; or
- Financial assets at fair value through profit or loss (FVTPL).

Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

A financial asset is measured at the amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

• it is held within a business model whose objective is to hold assets for collecting contractual cash flows, and

• it contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within the business model whose objective is achieved both by collecting contractual cash flows and selling the financial assets; and
- it contractual terms give rise on specified dates to cash flows that are SPPI on the principal amount outstanding.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all investments in mutual funds, portfolio management services and alternative investment fund (Refer Note 5) and foreign exchange derivative assets. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI or at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

#### Financial assets – Business model assessment

The Group makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Group management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Group continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

#### Financial assets - Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Group considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable-rate features;

- prepayment and extension features; and
- terms that limit the Group claim to cash flows from specified assets (e.g. non-recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable compensation for early termination of the contract. Additionally, for a financial asset acquired at a discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

#### Financial assets – Subsequent measurement and gains and losses

#### Financial assets at FVTPL

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

#### Financial assets at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

#### Debt investments at FVOCI

These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

#### Equity investments at FVOCI

These assets are subsequently measured at fair value. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to profit or loss.

#### Financial liabilities – Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. This includes foreign exchange derivative liabilities. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

#### iii. Derecognition

#### **Financial assets**

The Group derecognises a financial asset when:

- the contractual rights to the cash flows from the financial asset expire; or
- it transfers the rights to receive the contractual cash flows in a transaction in which either:
  - substantially all of the risks and rewards of ownership of the financial asset are transferred; or
  - the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset

The Group enters into transactions whereby it transfers assets recognised on its Consolidated Balance Sheet but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognised.

#### **Financial liabilities**

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled or expire. The Group also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognised in profit or loss.

#### iv. Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the Consolidated Balance Sheet when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

#### m. Impairment

#### i. Non-derivative financial assets

#### Financial instruments and contract assets

The Group recognises loss allowances for ECLs on:

- financial assets measured at amortised cost;
- debt investments measured at FVOCI; and
- contract assets.

The Group also recognises loss allowances for ECLs on finance lease receivables, which are disclosed as financial assets.

The Group measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for trade and finance lease receivables and loans are always measured at an amount equal to lifetime ECLs.

Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

12-month expected credit losses are the portion of expected credit losses that result from default events that are possible within 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which the Group is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group historical experience and informed credit assessment, that includes forward-looking information.

The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 2 years past due.

The Group considers a financial asset to be in default when:

- the debtor is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held); or
- the financial asset is more than two years past due.

#### **Measurement of ECLs**

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Group expects to receive).

ECLs are discounted at the effective interest rate of the financial asset.

#### Credit-impaired financial assets

At each reporting date, the Group assesses whether financial assets carried at amortised cost and debt securities at FVOCI are credit impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the debtor;
- a breach of contract such as a default or being more than thirty days past due;
- the restructuring of a loan or advance by the Group on terms that the Group would not consider otherwise;
- it is probable that the debtor will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for a security because of financial difficulties.

#### Presentation of allowance for ECL in the Consolidated Balance Sheet

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets. For debt securities at FVOCI, the loss allowance is charged to profit or loss and is recognised in OCI.

#### Write-off

The gross carrying amount of a financial asset is written off when the Group has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. For individual customers, the Group has a policy of writing off the gross carrying amount when the financial asset is three years past due based on historical experience of recoveries of similar assets. For corporate customers, the Group individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Group expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group procedures for recovery of amounts due.

#### ii. Impairment of non-financial assets

At each reporting date, the Group reviews the carrying amounts of its non-financial assets (other than investment property, inventories, contract assets and deferred tax assets) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount of an individual asset or CGU is the greater of its value in use and its fair value less costs of disposal. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognised in profit or loss. They are allocated first to reduce the carrying amount of goodwill, if any allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss in respect of goodwill is not subsequently reversed. In respect of other assets for which impairment loss has been recognised in prior periods, the Group reviews at each reporting date whether there is any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or recognised if no impairment loss had been recognised.

#### n. Provisions (other than employee benefits)

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Expected future operating losses are not provided for.

Where the Group expects some or all of the expenditure required to settle a provision will be reimbursed by another party, the reimbursement is recognised when, and only when, it is virtually certain that reimbursement will be received if the entity settles the obligation. The reimbursement is treated as a separate asset.

Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

#### Warranties

A provision for warranties is recognised when the underlying products or services are sold, based on historical warranty data and a weighting of possible outcomes against their associated probabilities

#### o. Leases

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

#### i. As a lessee

At commencement or on modification of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices. However, for the leases of property the Group has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

The Group recognised a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently amortised using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term, unless the lease transfers ownership of the underlying asset to the Group by the end of the lease term or the cost of the right-of-use asset reflects that the Group will exercise a purchase option. In that case the right-of-use asset will be amortised over the useful life of the underlying asset, which is determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease

#### liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

The Group determines its incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and type of the asset leased.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Group is reasonably certain to exercise, lease payments in an optional renewal period if the Group is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Group is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group estimate of the amount expected to be payable under a residual value guarantee, if the Group changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-ofuse asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Group presents right-of-use assets that do not meet the definition of investment property in 'property, plant and equipment' and lease liabilities separately in the Consolidated Balance Sheet within 'Financial Liabilities'.

Short-term leases and leases of low-value assets

The Group has elected not to recognise right-of-use assets and lease liabilities for leases of low-value assets and short-term leases. The Group recognised the lease payments associated with these leases as an expense in profit or loss on a straight-line basis over the lease term.

termination of a lease unless the Group is reasonably certain not to terminate early.

ii. As a lessor

At inception or on modification of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices.

When the Group acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease.

To classify each lease, the Group makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease. As part of this assessment, the Group considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

When the Group is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Group applies the exemption described above, then it classifies the sub-lease as an operating lease.

If an arrangement contains lease and non-lease components, then the Group applies Ind AS 115 to allocate the consideration in the contract.

The Group applies the derecognition and impairment requirements in Ind AS 109 to the net investment in the lease (Refer note 38). The Group further regularly reviews estimated unguaranteed residual values used in calculating the gross investment in the lease.

The Group recognised lease payments received under operating leases as income on a straight-line basis over the lease term as part of 'other income'.

### p. Borrowing costs

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are recognised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred.

### q. Contingent liabilities

Contingent liability is a possible obligation arising from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity or a present obligation that arises from past events but is not recognised because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability. The Group does not recognise a contingent liability but discloses its existence in the Consolidated financial statements.

### **Contingent assets**

Contingent asset is not recognised in consolidated financial statements since this may result in the recognition of income that may never be recognised. However, when the recognition of income is virtually certain, then the related asset is not a contingent asset and is recognised.

Provisions, contingent liabilities and contingent assets are reviewed at each consolidated balance sheet date.

### r. Earnings per share

### i. Basic Earnings Per Share

Basic earnings per share is calculated by dividing the profit (or loss) attributable to the owners of the Group by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for bonus issue, bonus element in a rights issue to existing shareholders, share split and reverse share split (consolidation of shares).

### ii. Diluted Earnings Per Share

Diluted earnings per share is computed by dividing the profit (considered in determination of basic earnings per share) after considering the effect of interest and other financing costs or income (net of attributable taxes) associated with dilutive potential equity shares by the weighted average number of equity shares considered for deriving basic earnings per share adjusted for the weighted average number of equity shares that would have been issued upon conversion of all dilutive potential equity shares.

### s. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision

maker. The chief operating decision maker is considered to be the Chairman and Managing Director who makes strategic decisions and is responsible for allocating resources and assessing performance of the operating segments.

### t. Cash and cash equivalents

Cash and cash equivalents comprises of cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

### u. Equity share capital

Incremental costs directly attributable to the issue of equity shares are recognised as a deduction from equity. Income tax relating to transaction costs of an equity transaction is accounted for in accordance with Ind AS 12.

### v. Dividend distribution

Dividends paid are recognised in the period in which the interim dividends are approved by the Board of Directors of the Group, or in respect of the final dividend when approved by shareholders of the Group.

### w. Standard issued but not yet effective

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2023, as below:

**Ind AS 1 - Presentation of Financial Statements** - This amendment requires the entities to disclose their material accounting policies rather than their significant accounting policies. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Group has evaluated the amendment and the impact of the amendment is insignificant in the consolidated financial statements.

**Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors -** This amendment has introduced a definition of 'accounting estimates' and included amendments to Ind AS 8 to help entities distinguish changes in accounting policies from changes in accounting estimates. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Group has evaluated the amendment and there is no impact on its consolidated financial statements.

**Ind AS 12 - Income Taxes** - This amendment has narrowed the scope of the initial recognition exemption so that it does not apply to transactions that give rise to equal and offsetting temporary differences. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Group has evaluated the amendment and there is no impact on its consolidated financial statements.

### 31 Employee Benefits

### A. Defined Benefit Plans

In accordance with the Payment of Gratuity Act, 1972, the Group provides for gratuity, as defined benefit plan. The gratuity plan provides for a lump sum payment to the employees at the time of separation from the service on completion of vested year of employment i.e. five years. The liability of gratuity plan is provided based on actuarial valuation as at the end of each financial year based on which the Group contributes the ascertained liability to Life Insurance Corporation of India by whom the plan assets are maintained.

These plans typically expose the Group to actuarial risks such as: investment risk, inherent interest rate risk, longevity risk and salary risk.

#### **Investment Risk**

The present value of the defined benefit plan liability (denominated in Indian Rupee) is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds.

### **Interest Rate Risk**

The defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase.

#### **Longevity Risk**

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

### Salary Risk

Higher than expected increases in salary will increase the defined benefit obligation.

The present value of the defined benefit obligation, and the related current service cost, were measured using the projected unit credit method.

### The principal assumptions (demographic and financial) used for the purposes of the actuarial valuations were as follows :-

Particulars	For the year ended March 31, 2023	For the year ended March 31, 2022
Discount rate	7.37% P.a.	7.24% P.a.

### Sensitivity analysis

Significant actuarial assumptions for the determination of the defined obligation are discount rate and expected salary increase. The sensitivity analysis below have been determined based on reasonable possible changes of the respective assumptions occurring at the end of the year, while holding all other assumptions constant.

Particulars	For the year ended March 31, 2023	For the year ended March 31, 2022
Impact of the change in discount rate		
Impact due to increase of 1.00%	(22.95)	(20.41)
Impact due to decrease of 1.00%	24.62	21.91
Impact of the change in future salary growth rate		
Impact due to increase of 1.00%	22.51	20.22
Impact due to decrease of 1.00%	(21.61)	(19.36)

The Group expects to make a contribution of ₹ 74.66 lakhs (March 31, 2022 - ₹ 195.33 lakhs) to the defined benefit plans during the next financial year.

As at March 31, 2023 the weighted-average duration of the defined benefit obligation is 5.43 years (March 31, 2022: 5.44 years).

## Maturity profile of defined benefit obligation

# B. Compensated absences (unfunded)

The leave obligations cover the Group's liability for sick and earned leaves. The Group does not have an unconditional right to defer settlement for the obligation shown as current provision. However based on past experience, the Group does not expect all employees to take the full amount of accrued leave or require payment within the next 12 months, therefore based on the independent actuarial report, only a certain amount of provisions has been recognised in the statement of profit and loss. Amount of ₹ 96.24 lakhs (March 31, 2022: ₹ 81.31 lakhs) has been recognised in the Consolidated Statement of Profit and Loss.

## C. Defined contribution plans

The Group makes contributions, determined as a specified percentage of employee salaries, in respect of qualifying employees towards Provident Fund and Employee State Insurance Scheme which are defined contribution plans. The Group has no obligations other than to make the specified contributions. The contributions are charged to the consolidated statement of profit and loss as they accrue. The amount recognised as an expense towards contribution to provident and other funds for the year aggregated to ₹ 267.04 lakh (March 31, 2023: ₹ 257.49 lakh).

#### B. Fair value hierarchy and measurment of fair value

The fair value of financial Instruments as referred to in note (A) above has been classified into three category depending on the inputs used in valuation technique. The hierarchy gives the highest priority to quoted price in active markets for identical assets or liabilities [Level 1 measurements] and lowest priority to unobservable inputs [Level 3 measurements].

The categories used are as follows:

Level 1: Quoted prices for identical instruments in an active market

**Level 2:** The fair value of financial instruments that are not traded in an active market (for example, derivatives) is determined using valuation techniques which uses inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Inputs which are not based on observable market data (unobservable inputs).

### C. Financial Risk Management

The Group's activities expose it to market risk, liquidity risk, credit risk and interest risk. This note explains the source of risk which the entity is exposed to and how the entity manages the risk and the related impact in the consolidated financial statements.

The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework.

The Group has exposure to the following risks arising from consolidated financial instruments:

- credit risk
- liquidity risk
- market risk

The Group's risk management is carried out by a treasury department under the supervision of Chief Financial Officer of the Group. The treasury department identifies and evaluates financial risks. The board of directors provides written principles for overall risk management, as well as policies covering specific areas, such as interest rate risk, liquidity risk etc.

The audit committee oversees how management monitors compliance with the Group's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Group.

#### C1. Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The maximum exposure to credit risk is represented by the total carrying amount of these financial assets in the Consolidated Balance Sheet.

The carrying amounts of financial assets represent the maximum credit exposure.

Particulars	As at March 31, 2023	As at March 31, 2022
Investments	34,865.77	17,924.30
Trade receivables	16,933.57	18,872.42
Loans	65.57	78.00
Cash and cash equivalents	2,148.15	572.39
Other bank balances	2,747.48	858.11
Other financial assets	4,259.81	1,824.97
Total	61,020.35	40,130.19

### Expected credit losses for financial assets other than trade receivables and finance lease receivables

The Group maintains its cash and cash equivalents and bank deposits with reputed banks. The credit risk on these instruments is limited because the counterparties are bank with high credit ratings assigned by domestic credit rating agencies. Hence, the credit risk associated with cash and cash equivalent and bank deposits is relatively low.

Loan comprises loans given to employees, which would be adjusted against salary of the employees and hence credit risk associated with such amount is also relatively low.

The Group maintains its investment in bonds and debentures with reputed financial institutions and corporates. The credit risk on these instruments is limited because the counterparties are financial institutions and corporates with high credit ratings assigned by domestic credit rating agencies. Hence, the credit risk associated with these investments is relatively low. Investments in Mutual funds, Alternative Investment Fund, Shares, Portfolio Management Service and Partnership firm are measured at mark to market hence, the credit risk associated with these investments as on reporting date.

(All amounts in ₹Lakhs, unless otherwise stated)

Security deposits are given for operational activities of the Group and will be returned to the Group as per the contracts with respective vendors. The Group monitors the credit ratings of the counterparties on regular basis. These security deposits carry very minimal credit risk based on the financial position of parties and Group's historical experience of dealing with the parties.

## Expected credit losses for trade receivables and finance lease receivable

Credit risks related to receivables is managed by each business unit subject to the Group's policy, procedures and control relating to customer credit risk management. Outstanding customer receivables are regularly monitored. An impairment analysis is performed at each reporting date on trade receivables and finance lease receivable by using lifetime expected credit losses as per simplified approach wherein the weighted average loss rates are analysed from the historical trend of defaults relating to each business segment. Such provision matrix has been considered to recognize lifetime expected credit losses on trade receivables and finance lease receivable (other than those where defaults criteria are met). The Group evaluates the concentration of risk with respect to trade receivables and finance lease receivable as low, since its customers are from various industries, jurisdictions and operate in independent markets. These receivables are written off when there is no reasonable expectation of recovery.

There are no receivables which are in default as at year end and the management believes that these are collectible in full based on historical payment behaviour.

The Group considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an on-going basis throughout each reporting period. To assess whether there is a significant increase in credit risk the Group compares the risk of default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. The Group considers reasonable and supportive forward-looking information.

## C2. Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting its obligations associated with financial liabilities. The investment philosophy of the Group is capital preservation and liquidity in preference to returns. The Group consistently generates sufficient cash flows from operations and has access to multiple sources of funding to meet the financial obligations and maintain adequate liquidity for use. The Group manages liquidity risk by maintaining adequate reserve, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

## Maturity profile of financial liabilities

The table below provides details regarding the remaining contractual maturities of financial liabilities at the reporting date based on contractual undiscounted payments.

	46,489.73	46,342.80	29.64	57.37	77.32		46,507.13

## C3. Liquidity risk

Market risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risk namely : currency risk and interest rate risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

## Price risk

The Group invests in mutual funds, portfolio management services, alternative investment funds, bonds and debentures, which

(All amounts in ₹Lakhs, unless otherwise stated)

are susceptible to market price risk arising from uncertainties about future values of the investment securities. In order to manage its price risk arising from investments, the Group diversifies its portfolio in accordance with the limits set by the risk management policies.

Decrease by 200 bps	(521.82)	(268.26)

### Foreign currency risk

Currency risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Exposure arises primarily due to exchange rate fluctuations between the functional currency and other currencies from the Group's operating, investing and financing activities. The Group undertakes transactions denominated in foreign currency (mainly US Dollar, Chinese Yuan and Euro) which are subject to the risk of exchange rate fluctuations. Considering the low volume of foreign currency transactions, the Group's exposure to foreign currency risk is limited hence the Group does not use any derivative instruments to manage its exposure.

## Foreign currency risk exposure in USD:

The Group's exposure to foreign currency risk at the end of the reporting period expressed in ₹, are as follows:

Particulars	As at	As at
	March 31, 2023	March 31, 2022
Financial assets	1,306.92	1,950.79
Financial liabilities	3,548.69	3,661.98
Net exposure to foreign currency risk	(2,241.77)	(1,711.19)

# THIS SPACE INTENTIONALLY LEFT BLANK

### Sensitivity

A reasonably possible strengthening (weakening) of the US dollar (USD), Chinese Yuan (CNY) and Euro (EURO) against ₹ at 31 March would have affected the measurement of financial instruments denominated in a foreign currency and affected equity and profit or loss by the amounts shown below. This analysis assumes that all other variables remain constant.

The sensitivity of profit/(loss) to changes in the exchange rates arises mainly from foreign currency denominated financial instruments.

Particulars	As at March 31, 2023	As at March 31, 2022
USD sensitivity (Impact on profit before tax)		
₹/USD increase by 200 bps*	(44.84)	(34.22)

₹/CNY increase by 200 bps*	1.13	
₹/CNY decrease by 200 bps*	(1.13)	

\*Holding all other variables constant

### C4.Interest Rate Risk

The Group's interest rate risk arises from debt borrowings. Borrowings issued at variable rates expose the Group to cash flow interest rate risk, whilst borrowings issued at fixed rates expose the Group to fair value interest rate risk. The risks are managed by monitoring an appropriate mix between fixed and floating rate borrowings.

Exposure to interest rate risk

The interest rate profile of the Group's interest-bearing financial instruments as reported to the management of the Group is as follows.

Particulars	As at March 31, 2023	
Exposure to interest rate risk		
Short term borrowings from bank	620.32	2,924.47
	620.32	2,924.47

Fair value sensitivity analysis of interest rate

The Group does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

A reasonably possible change of 50 basis points (bps) in interest rates at the reporting date would have increased/(decreased) equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant.

(All amounts in ₹Lakhs, unless otherwise stated)

### 33 Capital Management

The primary objective of the Group's capital management is to safeguard the Group's ability to continue as a going concern, maintain a strong credit rating and a healthy capital ratio to support the business and to enhance shareholder value. The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions and business strategies to maintain or adjust the capital structure, issue new shares or raise and repay debts. The Group's capital management objectives, policies or processes were unchanged during the year.

The Group monitors capital using 'total debt to total capital' and 'net debt to total capital' ratios. These ratios are as follows:

#### Debt equity ratio

### ITEM NO. 8

The Company had implemented Action Construction Equipment Limited Employees Stock Option Scheme – 2021("Scheme"), with a view to attract and retain key talents by way of rewarding their performance and motivate them to contribute to the overall corporate growth and profitability. The Scheme was originally approved vide members' resolution dated September 03, 2021 in due compliance of the provisions of the Companies Act, 2013 and the Rules thereunder and the Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021 ("SEBI (SBEB & SE) Regulations").

The existing Scheme provides that after vesting, Options can be exercised within 3 (Three) months from the date of respective vesting, either wholly or in part, through cash mechanism after submitting the exercise application along with payment of the exercise price, applicable taxes and other charges, if any. Further, with a view to provide flexibility to all the Employees and to ensure the maximum participation by them to exercise the options vested in them, it has been proposed to increase the Exercise Period from 3 (Three) Months from the date of respective vesting to 2 (Two) Years from the date of respective vesting.

Further, the Company amended the existing Scheme by causing variation in terms of Section 62(1)(b) and other applicable provisions, if any, of the Companies Act, 2013 read with Rule 12(5) of the Companies (Share Capital and Debentures) Rules, 2014 and Regulation 7(1) and other applicable provisions, if any, of the SEBI (SBEB & SE) Regulations. The proposed amendments to the Scheme are not prejudicial to the interest of the Employees. The amended Scheme shall be applicable from the date of passing of special resolution by the shareholders in the ensuing AGM.

Further, pursuant to the recommendation of the Nomination and Remuneration Committee, the Board of Directors at their meeting held on May 30, 2023 approved to increase the Exercise Period from 3 (Three) Months from the date of respective vesting to 2 (Two) Years from the date of respective vesting.

Based on the approval of the Nomination & Remuneration Committee (NRC) on May 30, 2023 and of the Board of Directors on May 30 2023, approval of Members is sought by way of a Special Resolution for Item No. 8 of the accompanying Notice for authorizing the Board to amend the existing Scheme to increase the Exercise Period in the said scheme and do all such acts, matters, deeds and things and to take all steps and do all things and give such directions as may be required, necessary, expedient, incidental or desirable for giving effect to the amendment in the Scheme in this regard.

In terms of Regulation 6(1) of Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021 ["SEBI (SBEB & SE) Regulations"] and Section 62 and other applicable provisions, if any, of the Companies Act, 2013, the issue of Equity Shares under an Employee Stock Options Scheme requires approval of the shareholders by way of a Special Resolution. The Special Resolution set out at **Item No. 8** is to seek your approval for the said purpose.

A summary of the key variation in the Scheme which is proposed to be amended is given below for the perusal and consideration of the Members. Details of the key variation of the Scheme is provided below:

1. Key Variation in the Scheme:

S.	Clause	Position under the	Variation Proposed
No.	No.	Existing Scheme	
1.	12.1	After vesting, Options can be exercised within 3 (Three) months from the date of respective vesting, either wholly or in part, through	The Company is proposing to increase the Exercise Period from 3 (Three) months from the date of respective vesting to 2 (Two) years from

Further, the main features and other details of the Scheme as per Regulation 6(2) of the SEBI (SBEB & SE) Regulations, are as under:

1. Brief Description of the Scheme:

Vesting of Options can vary from Grantee (an Eligible Employee to whom Options have been granted under the Scheme) to Grantee as per the discretion of the Board of Directors whose decision shall be final and binding.

The vesting would be subject to the continued employment of the Grantee and may further be linked with the eligibility criteria, as determined by the Board of Directors and mentioned in the grant letter.

### 5. Maximum period within which the Options shall be vested:

Maximum period within which the Options shall be vested is 4 (Four) years from the grant date.

### 6. Exercise Price or Pricing Formula:

The exercise price of the Shares will be decided by the Board of Directors and will either be.

- In case the Shares acquired by the Trust is from secondary acquisition then the exercise price will be decided on the basis of the average purchase price of the Shares of the Trust or the market price.
- In case the Shares acquired by the Trust is from direct allotment then the exercise price will be based upon market price.

For the above purpose Market price means the latest available closing price on a recognized stock exchange on which the Shares of the Company are listed on the date immediately prior to the relevant date i.e. date of the meeting of the Nomination and Remuneration Committee on which the grant is made.

Explanation – As the Equity Shares of the Company are listed on more than one recognised stock exchange, the closing price on the recognized stock exchange having higher trading volume shall be considered as the market price.

The Board of Directors has a power to provide suitable

discount upto a maximum of 35% on such price as arrived above. However, in any case the exercise price shall not go below the par value of Share of the Company.

### 7. Exercise period and process of Exercise:

After vesting, Options can be exercised within 2 (Two) years from the date of respective vesting, either wholly or in part, through cash mechanism after submitting the exercise application along with payment of the exercise price, applicable taxes and other charges, if any.

The mode and manner of the exercise shall be communicated to the grantees individually.

### 8. Appraisal process for determining the eligibility of the Employees for the Scheme:

The Board of Directors may on the basis of all or any of the following criteria, decide on the Employees / Grantees who are eligible for the grant / vesting of Options under the Scheme and the terms and conditions thereof.

- Loyalty: It will be determined on the basis of tenure of employment of an Employee / Grantee in the Company.
- Performance of Employee / Grantee: Employee's / Grantee's performance during the financial year in the Company on the basis of decided parameters.
- Performance of Company: Performance of the Company as per the standards set by the Board of Directors.
- Any other criteria as decided by the Nomination and Remuneration Committee in consultation with Board of Directors from time to time.

### 9. The Maximum number of Options to be granted per Employee and in aggregate:

The maximum number of Options that may be granted pursuant to this Scheme shall not exceed 5% of the Paid Up Capital of the Company as on March 31, 2021, comprising into, 56,74,159 (Fifty Six Lakhs Seventy Four Thousand One Hundred Fifty Nine) Options which shall be convertible into equal number of Equity Shares.

The maximum number of Options that can be granted to any eligible Employee during any one year shall not be equal to or exceed 1% of the issued capital of the Company at the time of grant. The Board of Directors may decide to grant such number of Options equal to or exceeding 1% of the issued capital to any eligible Employee as the case may be, subject to the separate approval of the Shareholders in a general meeting.

### 10. The Maximum quantum of benefits to be provided per Employee under the Scheme:

The maximum quantum of benefits that will be provided

to every eligible Employee under the Scheme will be the difference between the market value of Company's Share on the Stock Exchanges as on the date of Exercise of Options and the Exercise Price paid by the Employee.

# 11. Whether the Scheme is to be implemented and administered directly by the Company or through a Trust:

The Scheme shall be implemented through trust route wherein an irrevocable Trust by the name Action Construction Equipment Limited Employees Welfare Trust, set—up by the Company in compliance with SEBI (SBEB & SE) Regulations, shall acquire the Equity Shares either by way of secondary acquisition from the market and/or Direct allotment from the Company.

The Scheme shall be administered by the Nomination and Remuneration Committee which shall delegate some or all of its power to the Trust or any other Committee or Persons for proper administration of the Scheme.

# 12. Whether the Scheme involves new issue of shares by the Company or secondary acquisition by the Trust or both:

The Scheme involves both secondary acquisitions of equity shares by the Trust / Direct allotment to the Trust by the Company.

# 13. The amount of loan to be provided for implementation of the Scheme by the Company to the Trust, its tenure, utilization, repayment terms, etc.:

The amount of interest free loan to be provided for implementation of the Scheme by the Company to the Trust Shall not exceed 5% of the paid-up equity capital and free reserves as provided in Companies Act, 2013. The loan shall be repayable by the Trust in quarterly intervals subject to availability of the funds received pursuant to exercise of stock options under the Scheme and in accordance with the relevant provisions of the applicable laws & regulations. The utilization of such loan shall be for the objects of the Trust as mentioned in the trust deed. The Trust shall repay the loan to the Company by utilising the proceeds realised from exercise of Options by the Grantees and the accruals of the Trust at the time of duration or termination of the Scheme.

### 14. The Maximum percentage of secondary acquisition (subject to limits specified under the regulations) that can be made by the Trust for the purposes of the Scheme:

The total number of Shares under secondary acquisition held by the Trust in pursuance to the Scheme or any other share based Employee benefit plan implemented in the past, shall at no time, exceed 5 (Five) percent of the Paid-up Equity Capital of the Company as at the end of the financial year immediately prior to the year in which the Shareholder approval is obtained for such secondary acquisition in due compliance with the provisions of the SEBI (SBEB & SE) Regulations. Further, the secondary acquisition in a financial year by the Trust shall not exceed 2 (Two) percent of the Paid up Equity Capital as at the end of the previous financial year.

#### 15. Disclosure and accounting policies:

The Company shall comply with the disclosures requirements and the accounting policies prescribed under Regulation 15 of the SEBI (SBEB & SE) Regulations or as may be prescribed by regulatory authorities from time to time.

# 16. The method which the Company shall use to value its Options:

The Company shall comply with the requirements of IND-AS 102 and shall use Fair value method.

### 17. Statement with regard to Disclosure in Director's Report:

As the company is adopting fair value method, presently there is no requirement for disclosure in director's report. However, if in future, the Company opts for expensing of share based employee benefits using the intrinsic value, then the difference between the employee compensation cost so computed and the employee compensation cost that shall have been recognized if it had used the fair value, shall be disclosed in the Directors' report and the impact of this difference on profits and on earnings per share ("EPS") of the Company shall also be disclosed in the Directors' report.

#### 18. Period of lock-in:

The Shares transferred to the Grantees pursuant to exercise of Options will not be subject to any lock-in period and can be freely sold by the Grantee.

# 19. Terms & conditions for buyback, if any, of specified securities:

The Committee will determine the procedure for buyback of options granted under the Scheme, if to be undertaken at any time by the Company, and the applicable terms and conditions in accordance with the applicable laws.

A copy of the existing Scheme, would be available for inspection by the members, without any fee, at the registered office of the Company during normal business hours on any working days till the date of the Annual General Meeting.

The Board of Directors of the Company recommend the Special Resolution as set out at Item No. 8 for approval by the members.

None of the Directors, Manager and Key Managerial Personnel of the Company, and any relatives of such Director, Manager and Key Managerial Personnel are in anyway concerned or interested in the resolution except to the extent of Equity Shares held by them in the Company or the options may be granted under the Scheme.
